Application deadline: 30 September 2020

Web Developer Internship

ABOUT EIT URBAN MOBILITY

The website of EIT Urban Mobility is https://www.eiturbanmobility.eu

EIT Urban Mobility, supported by the European Institute of Innovation and Technology (EIT), acts to accelerate positive change on mobility to make urban spaces more liveable.

EIT Urban Mobility is an initiative of the European Institute of Innovation and Technology (EIT). Since January 2019 we have been working to encourage positive changes in the way people move around cities in order to make them more liveable places. We aim to become the largest European initiative transforming urban mobility. Co-funding of up to € 400 million (2020-2026) from the EIT, a body of the European Union, will help make this happen.

	*We create systemic solutions that will **move more people around the city more efficiently and free up public space**.*
	*We bring all **key players in urban mobility together** to avoid fragmentation and achieve more.*
	*We engage **cities and citizens from the word go,** giving them the opportunity to become true agents of change.*

MAIN TASKS

The Web Developed Intern will support and report to the IT Manager. The primary focus will be to contribute to defining a new toolset of Cloud Applications to enable the key functions of the EIT Urban Mobility. Working on a "Cloud Integrator" project. Defining a centralized data structure and integrating the different Cloud Applications will also be a key part of this internship. It is expected for the intern to be able to customize standard SaaS solutions based on the direct feedback from other colleagues in the company. The secondary focus will be to support other IT functions of the company.
Tasks and responsibilities include:

EIT Urban Mobility is supported by the EIT, a body of the European Union
