

Application deadline: 6 April 2021

Factory Intern

ABOUT EIT URBAN MOBILITY

EIT Urban Mobility, supported by the European Institute of Innovation and Technology (EIT), acts to accelerate positive change on mobility to make urban spaces more liveable.

EIT Urban Mobility is an initiative of the European Institute of Innovation and Technology (EIT). Since January 2019 we have been working to encourage positive changes in the way people move around cities in order to make them more liveable places. We aim to become the largest European initiative transforming urban mobility. Co-funding of up to € 400 million (2020-2026) from the EIT, a body of the European Union, will help make this happen.

	<i>We create systemic solutions that will move more people around the city more efficiently and free up public space.</i>
	<i>We bring all key players in urban mobility together to avoid fragmentation and achieve more.</i>
	<i>We engage cities and citizens from the word go, giving them the opportunity to become true agents of change.</i>

The **Factory Intern**, under the guidance of the Factory Business Developer, will provide support with tracking and following up on funding opportunities. The scope of the work will include communication and coordination related to participation of EIT UM and our partners in international consortia.

MAIN TASKS

Tasks and responsibilities include:

- Support with tracking and identification of funding opportunities on the national and international level

- Support with mapping of services provided by financial intermediaries, including for example the European Investment Bank and the European Bank for Reconstruction and Development
- Cooperation on a design and operationalization of a tracking system for selected best projects and a tracking system for external contacts for specific consortia
- Support with communications and coordination for specific proposals and consortia in the realm of urban mobility

EDUCATION, QUALIFICATIONS and EXPERIENCE

- Bachelors' degree preferred
- Previous experience in EU/national-level funding preferred
- Systemic approach to complex problem solving
- Ability to communicate complex issues in a simple, organized and precise manner
