# Entrepreneurship and Business Creation – Internship (CEO in Residence)

## ABOUT EIT URBAN MOBILITY

EIT Urban Mobility, supported by the European Institute of Innovation and Technology (EIT), acts to accelerate positive change on mobility to make urban spaces more liveable.

EIT Urban Mobility is an initiative of the European Institute of Innovation and Technology (EIT). Since January 2019 we have been working to encourage positive changes in the way people move around cities in order to make them more liveable places. We aim to become the largest European initiative transforming urban mobility. Co-funding of up to € 400 million (2020-2026) from the EIT, a body of the European Union, will help make this happen.

|---|---|
|  | <p><i>We create systemic solutions that will <b>move more people around the city more efficiently and free up public space.</b></i></p> |
|  | <p><i>We bring all <b>key players in urban mobility together</b> to avoid fragmentation and achieve more.</i></p>                       |
|  | <p><i>We engage <b>cities and citizens from the word go</b>, giving them the opportunity to become true agents of change.</i></p>       |

We have the pleasure to offer a **unique internship position with the aim to foster entrepreneurship and business creation within the EIT Urban Mobility community.**

You will work with supporting two pan-European urban mobility innovation projects with developing and fine-tuning their commercialization strategies. These projects include partners such as Altran, CARNET, City of Stockholm, Barcelona Metropolitan Area, SEAT, and TomTom.

Funded by the European Union

In parallel, you will work on developing a new startup venture related to urban mobility. If successful, this may be the start of your own startup supported by EIT Urban Mobility. We will give you professional coaching and training adjusted to your needs.

As part of your commercialization support to the pan-European innovation projects, you will work in close cooperation with pre-existing projects, partners, and users to analyze the market and solutions developed. This may include business intelligence and SWOT analysis of the consortia itself. The initial objective is to support the consortia identify the most promising commercial strategy(ies) for their solutions/product/services.

Your own startup idea around urban mobility should be based on your experience working with the innovation project but should not be directly related to the project. You will be given the chance to pitch your idea to investors and if successful join EIT Urban Mobility incubator and accelerator programmes.

This internship will be quite demanding, but for the right candidates **this is a unique opportunity to develop yourself as an entrepreneur** creating an urban mobility business within an international context.

This internship is offered by EIT Urban Mobility Academy or EIT Urban Mobility Business Creation in close cooperation with EIT Urban Mobility Innovation and the CEO of EIT Urban Mobility.
