1. Overview of EIT Urban Mobility

EIT Urban Mobility, supported by the European Institute of Innovation and Technology (EIT), acts to accelerate positive change on mobility to make urban spaces more livable.

EIT Urban Mobility is an initiative of the European Institute of Innovation and Technology (EIT). Since January 2019 we have been working to encourage positive changes in the way people move around cities in order to make them more livable places. We aim to become the largest European initiative transforming urban mobility. Co-funding of up to € 400 million (2020-2026) from the EIT, a body of the European Union, will help make this happen

*We create systemic solutions that will **move more people around the city more efficiently and free up public space.***

*We bring **all key players in urban mobility together** to avoid fragmentation and achieve more.*

*We **engage cities and citizens** from the word go, giving them the opportunity to become true agents of change.*

The EIT Urban Mobility S.L delivers breakthrough innovations to the market and breeds entrepreneurial talent for economic growth and improved quality of life in Europe. It does this by mobilising a pan-European ecosystem of more than 50 top European corporations, SMEs, start-ups, universities and research institutes constituted into the EIT Urban Mobility Association.

As a Knowledge and Innovation Community (KIC) of the European Institute of Innovation and Technology (EIT), the EIT Urban Mobility S.L is focused on entrepreneurship and is at the forefront of integrating education, research and business by bringing together students, researchers, engineers, business developers and entrepreneurs. This is done in a pan-European network of Co-Location Centers (CLCs), 5 Limited Liability Companies respectively based in Germany, Czech Republic, Denmark, the Netherlands and Spain.

We create systemic solutions that will move more people around the city more efficiently and free up public space.

We bring all key players in urban mobility together to avoid fragmentation and achieve more.

1.1. The EIT Urban Mobility Academy

Our Academy is a collaborative arena for lifelong learning, helping to build critical capabilities for innovation and transformation. We are training the next generation of urban mobility practitioners, needed by the urban mobility ecosystem of the future.

Our programmes are intersectoral, interdisciplinary, international, and entrepreneurial.

Within the Academy, there are three main areas: the Master School, the Doctoral Training Network and the Competence Hub. The Master School offers 2-year double degree master programmes together with a number of leading European universities. The Doctoral Training Network offers innovation and entrepreneurship training to urban mobility PhD candidates across Europe. The Competence Hub offers intensive learning programmes on hot topics in urban mobility and transport aimed at professionals from different sectors, such as project managers, engineers, city executives and entrepreneurs.

In addition, the EIT Urban Mobility Academy is involved in a number of education initiatives in cooperation with the other 7 EIT Knowledge and Innovation Communities, EIT KICs, such as EIT Food, EIT Health, EIT Climate, etc, led by the Academy's **Cross-KIC team**. One of the main projects within the Cross-KIC team for 2022 is the delivery of an EIT Virtual Campus, as members of a wider Cross-KIC Strategic Education Cluster.

2. General objectives and scope of work

2.1. General objectives

EIT Urban Mobility is part of the **Strategic Education Cluster**, a Cross-KIC pan European project that represents an unprecedented endeavour in the EIT Education Ecosystem to integrate, systematise and leverage education activities from different KICs, create joint offerings and open new opportunities for raising EIT's profile and for market penetration. Among other things, the Cluster hopes to further connect all KICs' education offer to the current and future needs of the labour market.

In the context of the Strategic Education Cluster, EIT Urban Mobility will work with other EIT KICs, which combined comprise a network of over 100 universities alongside other key education and non-education players, to develop the **EIT Virtual Campus**. The EIT Virtual Campus aims at bringing together the KICs' professional education offer available into one single platform. While the EIT Virtual Campus will act as an online shopping window by gathering the hundreds of courses offered by the involved KICs into one single platform, the courses will remain hosted on each individual KIC's learning platform (which range from market leader platforms such as FutureLearn and Coursera, to the KIC's own Moodle platforms). This means that the EIT Virtual Campus is expected to increase traffic to the KICs' education sites and courses by gathering all the professional education offer of the KICs into an attractive platform with a recognisable brand that can – in the near future - open up new markets to otherwise rather topic specific KICs.

Our goal in 2022 is to deliver the EIT Virtual Campus, which will be a pilot for a future, fully-fledged product, starting from 2023, called the **EIT Education Portal**, which will offer additional functionalities and further education provision integration.

To deliver the **EIT Virtual Campus** in 2022, there are two previous critical steps that need to be taken. These two steps are the focus of this Request for Proposals and are presented as two separate Work Packages:

1. **Mapping the professional education offer** across all 8 KICs, including designing a set of indicators against which to classify the courses based on their specifications and designing a consultation methodology with the KICs to understand and map their education portfolio; with views to producing a database gathering all this information, linking it to user-friendly visualisation tools, and supporting portfolio segmentation and the production of a course roll-out strategy.
2. **Delivering a digital marketing and data strategy**. The aim of this second Work Package will be to understand how we can most effectively and efficiently (a) attract attention to the EIT Virtual Campus, to increase traffic to the KICs' education offer; (b) drive user retention, including

lawfully using data to entice users to remain engaged with the EIT Virtual Campus; and (c) achieve conversion from visits to enrolments, with a view to maximising return on investment. The strategy will set out the technical requirements for the EIT Virtual Campus to deliver it.

2.2. Detailed scope of work

We are looking for one single contractor for the two following work packages.

Work Package 1. Mapping the 8 KICs' professional education offer

The main objective of this first WP is for the vendor to work with all 8 KICs representatives to map the professional education offer across all KICs, according to an agreed set of criteria and indicators. All participating KICs have nominated representatives to support EIT Urban Mobility to deliver the EIT Virtual Campus objectives; the vendor will need to work with the EIT Urban Mobility and other KICs' representatives to deliver this first WP.

The successful applicant will be required to:

- **Develop a set of criteria or indicators** against which all courses will be classified, in consultation with EIT Urban Mobility and other KICs. Examples of these indicators/criteria can be: (a) topic, (b) length, (c) mode (asynchronous, synchronous...), (d) level (entry-level, advanced...), (e) traffic (number of visitors) (f) platform (FutureLearn, Coursera, Moodle etc.), (g) specifications (open/closed course, free or paid for). This should also include how the KICs manage their education portfolio (for example: is content updated regularly? Do they have in-house curators/managers?).
- Establish and follow a **consultation methodology** with all KICs. The vendor will need to decide the most effective and efficient way to consult KICs about their education offer, so that the project can be completed according to a pre-established timeframe.
- Consolidate all the information collected into a **user-friendly database**. The vendor will need to ensure that EIT Urban Mobility and other KICs' colleagues can easily access and use this database upon completion of the contract. In that sense, the production of a manual on how to use the database and recommendations on how said database can be kept up to date will be required.
- **Produce visuals** for an easy understanding of what the professional education offer looks like across all the KICs. The vendor will need to link the database to a specific data visualisation tool (e.g. Tableau) and produce instructions on how this tool can be used so that KICs' colleagues can create, use and update the visuals.
- In close collaboration with EIT Urban Mobility, deliver an **assessment** in terms of which courses offer the best mix of qualities for inclusion in the EIT Virtual Campus in 2022.

We expect Work Package 1 to be completed no later than 15 June 2022.

Work Package 2. Producing a digital marketing and data strategy

This second WP will require the vendor to build on the offer identified in the mapping exercise to assess the digital marketing needs (and potential) of the EIT Virtual Campus, and assess the data collection and handling considerations required to achieve high levels of:

- a. **Attention** – attract visitors to the EIT Virtual Campus and as a result increase traffic to each individual KIC’s education offer.
- b. **Retention** – ensure a good mix of user experience, appropriate data insights, and subsequently effective digital marketing approach to encourage users to return to the EIT Virtual Campus, hence becoming the flagship education resource in the EIT space.
- c. **Conversion** – entice visitors to engage with education content. In a first stage, this will mean that visitors to the EIT Virtual Campus go on to click on courses offered and get redirected to the original KIC education site. In the longer term, we would be interested in strategies for ensuring that visitors subsequently enrol on to courses included on the EIT Virtual Campus / EIT Education Portal.

According to these 3 objectives, the vendor will be expected to:

1. Attention

- Identify main target audiences drawing upon WP1 findings.
- Offer digital marketing strategies to attract visitors to the EIT Virtual Campus, including paid-for and free-of-charge options.
- Identify the ideal media mix and come up with options to increase market penetration, considering target audiences.
- Identify options that present higher return on investment.

2. Retention

- Offer strategies to ensure that visitors and learners return to the EIT Virtual Campus to consult existing/new education offer, stay up to date with content on the EIT Virtual Campus, return as learners if they have already taken courses in the past.
- Advise on how visitor and learner data can be collected and used in order to increase return rates and traffic, in a way that is lawful and GDPR-compliant.

3. Conversion

- Identify digital marketing strategy to encourage visitors to engage with the education courses on the EIT Virtual Campus, i.e. transit from the EIT Virtual Campus on to the individual KICs’ education sites. Data to document this transit should be made possible to generate.
- Identify digital marketing tools that would help us achieve conversion from visits to enrolments.
- Understand how we can collect and use data lawfully to entice visitors to engage with the education content on the EIT Virtual Campus.

In addition to this, we expect the vendor to produce a data strategy to ensure the **flow of data/information** from individual KICs' education sites to the EIT Virtual Campus, ensuring that the latter can stay up to date- for example, when a course hosted on KICs' e-learning platform stops or is discontinued or some of its main features change, this should be reflected on the course's page on the EIT Virtual Campus. The data strategy should also consider how we can effectively and lawfully collect and use data, and the infrastructure we need to put in place to do so. It should also consider Intellectual Property aspects of featuring content that is originally hosted on individual KICs' sites.

We expect Work Package 2 to be completed no later than 1 August 2022.

2.3. Location, timing, planning and reporting

2.3.1 Start date & period of implementation

The intended start date is, at the latest, 4 April 2022 and is expected to last, at the latest, until 1 August 2022.

EIT Urban Mobility intends to use the direct award procedure with the winner of the present procedure for covering the needs of up to an additional 12 months in the course of 2023- 2024 once the budget is known and all resources of the present contract are used up.

2.3.2 Location

This project doesn't have a specific office location during the implementation – the provider should mainly provide assistance from his/her home base of operation. We intend to work under a virtual environment as an organisation. Video conferences and telephone conferences are preferred options for team meetings.

On a need basis, the provider can be called for specific assignments either to EIT Urban Mobility or other KICs or to its partners. All costs borne for such travels shall be subject to reimbursement detailed later by EIT Urban Mobility if justified.

2.3.3 Payment terms

Available maximum fund for the requested services is EUR 55,000 (VAT excluded).

The services should be invoiced on a monthly basis, in arrears including timesheets.

Payment shall be made upon the acceptance of the deliverables completed

2.4. Methodology of work

- Initial kick-off meeting to define the timelines for the different deliverables.
- Bi-weekly meetings to discuss the progress of the deliverables.
- Periodic consultation with other KICs' colleagues, at least on a monthly basis.
- Direct contact (email, phone) in between the meetings is required when necessary.

2.5. Deliverables

WP 1. Mapping the 8 KICs' professional education offer will have the follow deliverables:

- **D1.1** – Database of KICs' professional educational offer, including linkage to data visualisation tool.
- **D1.2** – Report with findings of mapping exercise, including visualisations. This should include the list of criteria/indicators used to assess courses and the consultation methodology followed.
- **D1.3** – User manual for handling/using the database and the visualisation tool, including recommendations for keeping the database up to date.

WP2. Producing a digital marketing and data strategy will have the following deliverables:

- **D2.1** – Digital marketing strategy report

Performance of the Services, organization, quality, timely delivery, subcontracting, reporting of progress, acceptance, changes

With due observance of the other provisions of the Agreement, Supplier shall perform the Services specified under Annex 1 for EIT UM under this Agreement, within the time schedule specified under Annex 1.

Supplier agrees to perform the Services by exercising due skill, speed and care, at a level generally required of well-reputed Suppliers in the same field as the one covered by this Agreement and shall make every effort to the best of Supplier's abilities to serve the interests of EIT UM as much as possible.

Supplier is free to organise the way it provides the Services and the timing thereof autonomously and at its own discretion without supervision or authority of EIT UM, (i) provided the Services are performed accurately and diligently and in accordance with the requirements of this Agreement, including the timely delivery of the Services as specified under Annex 1, and (ii) subject to specific requirements as may be stated in Annex 1 regarding the way the Services shall be provided. Supplier may conduct its business activities from its own premises but may

be requested to operate from EIT UM's premises whenever it is necessary for the performance of the Services. Supplier shall arrange their own travel, should they need to travel in order to perform the Services. When performing the Services, Service Provider shall use its own tools and materials, work forces. Supplier shall be fully responsible for the proper execution of this Agreement in all respects.

Supplier shall use personnel who possess the qualifications and experience necessary for the performance of the Services. Additional requirements relating to personnel may be provided in Annex 1, as the case may be.

Unless otherwise specifically provided under Annex 1, Supplier may subcontract part of the provision of the Services to subcontractors, provided such subcontractors are contractually bound by similar obligations as under this Agreement, and provided Supplier has disclosed the elements of the Agreement to be subcontracted and the identity of the relevant subcontractor to the subcontracting. Supplier remains at all times responsible for the work performed by its subcontractors and for the acts, defaults and negligence of such subcontractors, and no subcontract shall create any contractual relationship between any subcontractor and EIT UM. Additional requirements relating to subcontracting may be provided in Annex 1, as the case may be.

In order for EIT UM and Supplier to monitor the proper performance of the Services throughout the Term of the Agreement, Supplier shall report to EIT UM progress of the performance of the Services, in writing, at intervals and under conditions specified under Annex 1. Supplier shall provide EIT UM with time sheets describing the tasks performed by Supplier and the time spent on each task, pursuant to the regularity provided under Annex 1 and pursuant to the time sheet template provided by EIT UM separately.

If, for whatever reason, Supplier is not able to perform the agreed Services, or is not able to meet the deadlines agreed in Annex 1, Supplier shall notify EIT UM hereof promptly in writing, and shall take any reasonable measure to mitigate the consequences of such situation, in agreement with EIT UM.

Services delivered are subject to the acceptance of EIT UM. EIT UM shall issue a Performance certificate after completion of Services. Should EIT UM fail to reject part or all of the Services provided within 15 (or other deadline set forth in Annex 1) calendar days as from such delivery, on the grounds of a lack of quality or compliance, or because of late delivery, Services shall be considered as accepted. Should EIT UM reject a Service (within the above deadline) because of lack of quality or compliance, and such failure is capable of remedy, Supplier shall re-perform the rejected (part of the) Service promptly (but no later than 5 days in absence of any further instructions) at no additional charge for EIT UM. Should such failure be not capable of remedy (given the type of Service and/or the extent of the failure) or should the delivery have occurred after an essential delivery deadline which renders the Service irrelevant or useless, the Services at stake shall be considered as rescinded, and EIT UM is not obliged to provide any compensation to Supplier for such Services.

Modifications to the Services and/or other provisions of this Agreement may only be agreed by the Parties as per the EIT UM procurement rules, i.e. if:

mutually agreed in writing, and

the need for modification has been brought about by circumstances which a diligent contracting entity could not foresee; and

the modification does not alter the overall nature of the contract; and

any increase in price is not higher than 25 % of the original value of the Agreement. In addition, if several successive increases in price would be agreed, the total cumulating of such successive increases shall not exceed 25% of the original value of the Agreement; and

modifications above 10% of the original value of the Agreement should only amend specific conditions of the Agreement and be made by way of an amendment to this Agreement signed by both Parties.

Compensation, invoicing and payment, expenses

Supplier is entitled to charge, in respect of Supplier's Services as described under Annex 1, the compensation specified in Annex 1 per Service.

Supplier may only charge the amounts under Section 4.1. corresponding to the delivered Services, after acceptance of such Services by EIT UM.

Further, Supplier may only charge the amounts under 4.1. subject to (i) EIT UM having received a correct invoice bearing the essential elements below, (ii) all relevant Progress Reports relating to the delivered Services so invoiced having been properly delivered to EIT UM in a timely manner and accepted by EIT UM in writing (as the case may be).

An invoice shall be considered as correct when containing the following essential elements:

the name and address of Supplier

the VAT identification number of Supplier

the VAT identification number of EIT UM

the name and address of EIT UM

the invoice number

the invoice date

the date on which the Services were supplied (provided EIT UM S has accepted them pursuant to this Agreement)

the quantity and type of goods supplied (if applicable)

the nature and type of Services supplied

the following data for every VAT tariff or exemption:

the price per piece or unit, excluding VAT

any reductions that are not included in the price

the VAT tariff that has been applied

the cost (the price excluding VAT)

in case of advance payment: the date of payment, if this is different from the invoice date

the amount of VAT

By deviation to Section 4.2., Supplier may charge the amounts under Section 4.1., at the beginning of each (quarterly, monthly or other) period specified in Annex 1, if such alternative is specifically agreed by EIT UM in Annex 1. In such a case, requirements of Section 4.3. shall apply to each regular invoice.

The payment term applying to Supplier invoices fulfilling the requirements of this Section 4 is fixed in Annex 1.

All amounts corresponding to the compensation per Service, as fixed in Annex 1, shall be fixed tariffs, which may not be revised during the Term of this Agreement, unless specifically provided otherwise in Annex 1 (and within the limits of the price revision mechanisms authorised under the procurement procedure).

Supplier may charge expenses to EIT UM, to the extent Annex 1 provides for such possibility. Expenses shall only be paid if EIT UM has given its written approval prior to Supplier incurring said costs.

If Supplier fails to fulfil any of its obligations under the Agreement, EIT UM may suspend payment to Supplier, upon notice to Supplier.

Supplier hereby unconditionally accepts that EIT UM has the right to set off any amount that EIT UM owes to Supplier under this Agreement, with any amount Supplier owes to EIT UM under this Agreement or any other agreement.

Taxes, other contributions, no employment agreement and related indemnification

All tariffs are gross amounts but exclusive of any value added tax (VAT), sales tax, GST, consumption tax or any other similar tax ("**Taxes**").

If the Services under this Agreement are subject to any other Taxes, Supplier may charge such Taxes to EIT UM, which taxes shall be paid by EIT UM in addition to the compensation for Supplier. Supplier is responsible for paying any applicable Taxes to the appropriate (tax) authorities.

In addition to Section 5.1. and 5.2., all social security, fiscal charges or taxation of any kind and contributions of any kind including but not limited to value added, levies, withholdings, unemployment, medical insurance and insurance of any kind, pensions, national insurance contributions and social security benefits, as imposed by any law, accommodation and travel costs, living expenses, or other expenses and charges arising from this Agreement, will be the exclusive responsibility of Supplier, who must pay such taxes, charges, any kind of expenses and contributions directly to the competent authorities or employees (as the case may be) (altogether called "**Contributions**").

Supplier shall perform the Services hereunder as an independent contractor and not as an agent of EIT UM and nothing contained in the Agreement is intended to create a partnership, joint venture or employment relationship between the Parties irrespective of the extent of economic dependency of Supplier on EIT UM.

Supplier shall indemnify and keep EIT UM harmless from any claims from any authority for payment of any Contributions, including all interest charged in respect thereof, surcharges and possible administrative fines in connection with the Services performed by Supplier on the basis of the Agreement.

Intellectual property, ownership and licensing, IP infringement indemnification

"**Intellectual Property Rights**" or "**IP**" shall mean patents, utility certificates, utility models, (industrial) design rights, copyrights, database rights, trademarks, trade names and trade secrets, including moral rights and any applications, renewals, extensions, combinations, divisions, discontinuations or re-issues of the foregoing.

Unless expressly specified otherwise in Annex 1, should the performance of the Services entail the delivery of (written) advice, reports or any other materials or results ("**Deliverables**"), the ownership of any Intellectual Property Rights in such Deliverables shall be vested in EIT UM.

In addition to Section 6.1., any item provided by EIT UM (or by a third party designated by EIT UM on behalf of EIT UM) and used to perform the Services and/or embedded in the delivered Services, shall at all times remain the ownership of EIT UM S. Supplier shall have no right, title or interest in any of these items nor any trademark or trade name from EIT UM.

By exception to Section 6.1., Intellectual Property Rights owned or controlled by Supplier before the start of the performance of the Services shall remain the ownership of Supplier ("**Background IP**").

Supplier hereby grant a non-exclusive, royalty-free and fully paid-up, worldwide, irrevocable and perpetual license under its Background IP used for the performance of the Services, to EIT UM,

with the right to sublicense, for the use, make, have made, build-in, market, sell, lease, license distribute and/or otherwise dispose of the Services and/or Deliverables.

Supplier shall not, without EIT UM' prior written consent, publicly make any reference to EIT UM, whether in press releases, advertisements, sales literature or otherwise.

Unless expressly specified otherwise in Annex 1,

Supplier shall indemnify and hold harmless EIT UM, its Affiliates, partners, contractors and employees in respect of any and all claims, damages, costs and expenses (including but not limited to loss of profit and reasonable attorneys' fees) in connection with any third party claim that any of the Services alone or in any combination or their use infringes any third party IPRs, or, if so directed by EIT UM, shall defend any such claim at Supplier's own expense. By "Affiliate" is meant any and all companies, firms and legal entities with respect to which now or hereafter EIT UM, directly or indirectly holds 50% or more of the nominal value of the issued share capital or 50% or more of the voting power at general meetings or has the power to appoint a majority of directors or otherwise to direct the activities of such company, firm or legal entity, including but not limitedly through a domination agreement.

EIT UM shall give Supplier prompt written notice of any such claim, provided, however, any delay in notice shall not relieve Supplier of its obligations hereunder except to the extent it is prejudiced by such delay. Supplier shall provide all assistance in connection with any such claim as EIT UM may reasonably require.

If any Services alone or in any combination, provided under the Agreement are held to constitute an infringement or if their use is enjoined, Supplier shall, as directed by EIT UM, but at its own expense: either 1) procure for EIT UM or its users the right to continue using the Services alone or in any combination; or 2) replace or modify the Services alone or in any combination with a functional, non- infringing equivalent.

If Supplier is unable either to procure for EIT UM the right to continue to use the Services alone or in any combination or to replace or modify the Services alone or in any combination in accordance with the above, EIT UM may terminate the Agreement and upon such termination, Supplier shall reimburse to EIT UM the price paid, without prejudice to Supplier's obligation to indemnify EIT UM as set forth herein.

Confidentiality, documents

Confidential Information means any and all proprietary and/or confidential data and information, such as but not limited to commercial and/or technical information, that EIT UM, its Affiliates or representatives may disclose directly or indirectly, whether in writing or any other form, to Supplier that is related to the Service, which (a) is marked as "confidential" or "proprietary" or words of similar import when disclosed, and (b) is orally disclosed and is summarized and described as confidential in a writing that is delivered to Supplier within fifteen (15) days of disclosure.

During the period beginning on the Effective Date and continuing for a period of five (5) years thereafter (the "**Confidentiality Period**"), Supplier agrees not to: (i) use EIT UM' Confidential Information for any purpose other than for the Service; and (ii) disclose EIT UM Confidential

Information to any third party, except to its employees and other persons under its supervision that are operating within its organization, including without limitation, its Partners' employees who (A) have a legitimate "need to know" to accomplish the Service, and (B) are obligated to protect such Confidential Information pursuant to terms and conditions not less restrictive than those contained in this Agreement. Supplier shall protect EIT UM' Confidential Information as required hereunder using the same degree of care, but no less than a reasonable degree of care, as Supplier uses to protect its own confidential information of a like nature.

Supplier's obligations above shall not apply to any data or information that it can prove: (a) is lawfully available to EIT UM, prior to the time of receipt from EIT UM as verified by written records; (b) is or becomes publicly available without violation of this Agreement or any other obligation of confidentiality and through no act or omission of Supplier; (c) is lawfully furnished to Supplier by a third party without use or disclosure restrictions; or (d) is developed by Supplier without use of or reference to any of EIT UM' Confidential Information. Furthermore, a disclosure by Supplier that is required pursuant to any judicial or governmental proceeding shall not be considered a breach of this Agreement, provided that Supplier promptly after learning of such action shall notify, to the extent permitted by applicable law, EIT UM thereof to give Supplier the opportunity to contest disclosure or to seek any available legal remedies to maintain such information in confidence.

Supplier is not permitted - alone or with or through others – to remove, dispatch, transmit or allow any third parties to inspect, use or otherwise have access to any property belonging to EIT UM or any of its Affiliates, including but not limited to any notes, drawings, letters, formulas, recipes, other documents and/or any copies thereof, tools, designs, products manufactured or (copies of) computer files or other data carriers, unless EIT UM has given its prior written permission to any such action.

EIT UM shall remain the owner of all property it has made available to Supplier in connection with this Agreement.

Supplier shall make all property belonging to EIT UM (or its Affiliates) such as, but not limited to any notes, drawings, letters, formulas, recipes, other documents and/or copies of such matters, tools, models, finished products, (copies of) automated files or other data carriers, which come into its possession during the term of this Agreement, available to EIT UM in good condition immediately upon initial request, but in any case on the day on which the Agreement ends.

Personal data

For the purpose of this Agreement,

"Personal Data" shall mean any and all information relating to an identified or identifiable individual, including but not limited to EIT UM current or former employees, employee family members, dependents or beneficiaries, customers, consumers, suppliers, business partners or contractors;

"Processing" shall mean any operation or set of operations performed or to be performed upon Personal Data, whether or not by automatic means, such as creation, access, collection, recording, organization, storage, loading, employing, adaptation or alteration, retrieval, consultation, displaying, use, disclosure, dissemination or otherwise making available,

alignment or combination, blocking, erasure or destruction (hereinafter also referred to as a verb “**Process**”).

Where Supplier in the performance of the Agreement Processes Personal Data, then Supplier agrees and warrants that Supplier shall:

comply with all privacy and data protection law and regulations applicable to its Services;

Process Personal Data only (i) on behalf of and for the benefit of EIT UM, (ii) in accordance with EIT UM’ instructions, and (iii) for the purposes authorized by this Agreement or otherwise by EIT UM, and (iv) insofar necessary for the Services rendered to EIT UM and as permitted or required by law;

maintain the security, confidentiality, integrity and availability of the Personal Data;

implement and maintain appropriate technical, physical, organizational and administrative security measures, procedures, practices and other safeguards to protect the Personal Data against (i) anticipatable threats or hazards to its security and integrity; and (ii) loss, unauthorized access to, or acquisition or use of or unlawful Processing; and

promptly inform EIT UM of any actual or suspected security incident involving the Personal Data.

To the extent that Supplier allows a (sub)contractor to process the Personal Data, Supplier shall ensure that it binds such (sub)contractor to obligations which provide a similar level of protection, but in no way less restrictive, as this Section 8.

Supplier shall, upon the termination of the Agreement, securely erase or destroy all records or documents containing the Personal Data. Supplier accepts and confirms that it is solely liable for any unauthorized or illegal processing or loss of the Personal Data, if Supplier fails to erase or destroy the Personal Data upon termination of the Agreement.

Supplier shall indemnify and hold harmless EIT UM, their officers, agents and personnel from any damages, fines, losses and claims arising out of a breach of this Section 8.

Liability, indemnification, insurance

Supplier shall indemnify and hold harmless EIT UM, its Affiliates, agents and employees, from and against all suits, actions, legal or administrative proceedings, claims, demands, damages, judgments, liabilities, interest, attorneys’ fees, costs and expenses of whatsoever kind or nature (including but not limited to special, indirect, incidental, consequential damages), whether arising before or after completion of the performance of the Services covered by the Agreement, in any manner caused or claimed to be caused by the acts, omissions, faults, breach of express or implied warranty, breach of any of the provisions of this Agreement, or negligence of Supplier, or of anyone acting under its direction or control or on its behalf, in connection with Services or any other information furnished by Supplier to EIT UM under the Agreement.

Supplier warrants that it has taken out sufficient insurance against the aforementioned damage, costs and interest, or has made a sufficient provision for this purpose and is obliged to fully

disclose to EIT UM immediately upon initial request all the (policy conditions of the) aforementioned insurance(s) and/or provisions. Supplier shall indemnify EIT UM and shall pay its insurance proceeds to EIT UM and furthermore indemnify for the excess amount of the total claim of damages that is not covered by the insurance of Supplier or any other insurance. EIT UM shall be entitled to take legal action against Supplier.

Neither Party excludes or limits its liability for death or personal injury arising from its own negligence, fraud, breach of confidentiality or for any liability that cannot by law be excluded or limited.

Subject to Section 9.3 In no event shall EIT UM be liable under any theory of liability, for indirect, incidental, special, consequential or punitive damages, which includes without limitation damages for lost profits or revenues, lost business opportunities, loss of image or lost data, even if EIT UM has been advised of the possibility of such damages and in no event shall EIT UM be liable to Supplier, its successors or assigns for damages in excess of the amount due to Supplier for complete performance under the Agreement, less any amounts already paid to Supplier by EIT UM.

Subject always to Section 9.3., depending on the nature of the Services and the liability risk associated therewith, a cap to the liability of Supplier under this Agreement may apply only if expressly mutually agreed in writing in Annex 1.

Suspension, termination of the Agreement

The Agreement is entered into as from the Effective Date specified in Annex 1 and shall end by operation of law, without the requirement of prior notice of termination, on the date the last of the Services have been delivered by Supplier, accepted and paid by EIT UM (“**Term**”).

As an exception to the above, EIT UM may suspend, withdraw, dissolve or terminate this Agreement fully or partially with immediate effect without incurring any penalty or compensation if and as soon as:

Supplier breaches any of its material obligations under this Agreement and, notwithstanding a written request from EIT UM to repair the current breach and to take appropriate measures to prevent such a breach in the future, fails to comply with such a request within a reasonable deadline fixed by EIT UM in the notice; or

EIT UM, in its reasonable discretion, determines that Supplier is not able to perform the Services as required; or

Supplier fails to provide EIT UM with adequate assurance of performance following request by EIT UM; or

Supplier files a petition for bankruptcy or is declared bankrupt; or

Supplier has become unable to pay its debts as they fall due or make any special arrangement(s) or composition with its creditors;

Supplier enters into voluntary or judicial liquidation;

the business of Supplier ceases to exist or control or ownership is taken over by a third party;

as a result of the termination of the European Programme(s) which requested EIT UM to enter into this Agreement (as the case may be).

As from receipt of a termination notice from EIT UM (under any legal ground), Supplier shall take immediate steps to bring the terminated Services to a closure in a prompt and orderly manner and to reduce expenditure to a minimum.

Supplier may, after giving 14 calendar days written notice to EIT UM, terminate the Agreement if EIT UM:

Fails for more than 120 calendar days to pay Supplier the amounts due after the expiration of the payment term stated in Section 4; or

Consistently fails to meet its material obligations after repeated reminders; or

Suspends the progress of the Services or any part thereof for more than 90 calendar days for reasons not specified in the Agreement, or not attributable to Supplier's breach or default.

Safeguarding of EU's financial interest and conflict of interest

Supplier accepts without reservation that during the implementation of the Agreement and for four (4) years after the completion of the Agreement, EIT UM has the right for the purposes of safeguarding the EU's financial interests, the tender proposal and the Agreement with Supplier may be transferred to internal audit services, the EIT, to the European Court of Auditors, to the Financial Irregularities Panel or to the European Anti-Fraud Office ('safeguarding the EU's financial interests').

Supplier confirms that it shall take all measures to prevent any situation where the impartial and objective implementation of the Agreement is compromised for reasons involving economic interest, political or national affinity, family or emotional ties or any other shared interest ('conflict of interests'). The contractor is obliged to inform EIT UM immediately if there is any change in the above circumstances at any stage during the implementation of the tasks under the Agreement.

Miscellaneous

All notices given under this Agreement shall be given in writing. Any subsequent change of address shall be promptly notified by the Party concerned to the other Party and embodied in an amendment to the preamble of this Agreement.

In the event that Supplier is prevented from performing any of its obligations under the Agreement for reason of force majeure (being an event unforeseeable and beyond the control of Supplier) and Supplier has provided sufficient proof for the existence of the force majeure, the performance of the obligation concerned shall be suspended for the duration of the force majeure. EIT UM shall be entitled to terminate the Agreement with immediate effect by written notice to Supplier, immediately if the context of the non-performance justifies immediate termination, and in any event if the circumstance constituting force majeure endures for more

than thirty (30) days and, upon such notice, Supplier shall not be entitled to any form of compensation in relation to the termination. Force majeure on the part of Supplier shall in any event not include shortage of personnel or production materials or resources, strikes, not officially declared epidemic or pandemic, breach of contract by third parties contracted by Supplier, financial problems of Supplier, nor the inability of Supplier to secure the necessary licenses in respect of software to be supplied or the necessary legal or administrative permits or authorizations in relation to the Services to be supplied.

Supplier shall not transfer, pledge or assign any of its rights or obligations under the Agreement without the prior written consent of EIT UM. Any such pre-approved, transfer, pledge or assignment shall be null and void and have no effect vis-à-vis such third party.

The rights and remedies reserved to EIT UM are cumulative and are in addition to any other or future rights and remedies available under the Agreement, at law or in equity.

Neither the failure nor the delay of EIT UM to enforce any provision of the Agreement shall constitute a waiver of such provision or of the right of EIT UM to enforce each and every provision of the Agreement.

No course or prior dealings between the parties, no course of performance, and no usage of the trade shall be relevant to determine the meaning of the Agreement and to modify the provisions of this Agreement.

No waiver, consent, modification or amendment of the terms of the Agreement shall be binding unless made in a writing specifically referring to the Agreement signed by EIT UM and Supplier.

In the event that any provision(s) of this Agreement shall be held invalid, unlawful or unenforceable by a court of competent jurisdiction or by any future legislative or administrative action, such holding or action shall not negate the validity or enforceability of any other provisions of the Agreement. Any such provision held invalid, unlawful or unenforceable, shall be substituted by a provision of similar import reflecting the original intent of the clause to the extent permissible under applicable law.

All terms and conditions of the Agreement which are destined, whether express or implied, to survive the termination or the expiration of the Agreement, including but not limited to Intellectual Property, Confidentiality and Personal Data, shall survive.

The Agreement shall be governed by and construed in accordance with the laws of the country or state in which the EIT UM ordering entity is located, as applicable.

Supplier and EIT UM each consents to the exclusive jurisdiction of the competent courts in (i) the country or state in which the EIT UM ordering entity is located; or (ii), at the option of EIT UM, the jurisdiction of the entity of Supplier to which the order was placed, or (iii), at the option of EIT UM, for arbitration in which case Section 12.12. applies. Supplier hereby waives all defences of lack of personal jurisdiction and forum non-convenience.

If so chosen by EIT UM in accordance with Section 12.11, any dispute, controversy or claim arising out of or in connection with this Agreement, or their breach, termination or invalidity shall be finally settled solely under the International Chamber of Commerce Rules of arbitration,

which Supplier and EIT UM declare to be known to them. Supplier and EIT UM agree that: (i) the appointing authority shall be the ICC-International Chamber of Commerce of Paris, France; (ii) there shall be three (3) arbitrators; (iii) arbitration shall take place in the jurisdiction of the EIT UM entity mentioned in the recitals or, at the option of EIT UM, the jurisdiction of the Supplier's entity mentioned in the recitals; (iv) the language to be used in the arbitration proceedings shall be English; and (v) the material laws to be applied by the arbitrators shall be the laws as determined under Section 12.10.

The United Nations Convention on International Sale of Goods shall not apply to the Agreement.
