# 1. Overview of EIT Urban Mobility

The website of EIT Urban Mobility is <https://www.eiturbanmobility.eu>

EIT Urban Mobility is an initiative of the European Institute of Innovation and Technology (EIT). Since January 2019 we have been working to encourage positive changes in the way people move around cities to make them more liveable places. We aim to become the largest European initiative transforming urban mobility. Co-funding of up to € 400 million (2020-2026) from the EIT, a body of the European Union, will help make this happen.

*We create systemic solutions that will **move more people around the city more efficiently and free up public space.***

*We bring **all key players in urban mobility together** to avoid fragmentation and achieve more.*

*We **engage cities and citizens** from the word go, giving them the opportunity to become true agents of change.*

The EIT Urban Mobility S.L delivers breakthrough innovations to the market and breeds entrepreneurial talent for economic growth and improved quality of life in Europe. It does this by mobilising a pan-European ecosystem of more than 50 top European corporations, SMEs, start-ups, universities and research institutes constituted into the EIT Urban Mobility Association.

As a Knowledge and Innovation Community (KIC) of the European Institute of Innovation and Technology (EIT), the EIT Urban Mobility S.L is focused on entrepreneurship and is at the forefront of integrating education, research and business by bringing together students, researchers, engineers, business developers and entrepreneurs. This is done in a pan-European network of Co-Location Centers (CLCs), 5 Limited Liability Companies respectively based in Germany, Czech Republic, Denmark, the Netherlands and Spain.

We create systemic solutions that will move more people around the city more efficiently and free up public space.

We bring all key players in urban mobility together to avoid fragmentation and achieve more.

## 1.1. About EIT Urban Mobility Academy Competence Hub

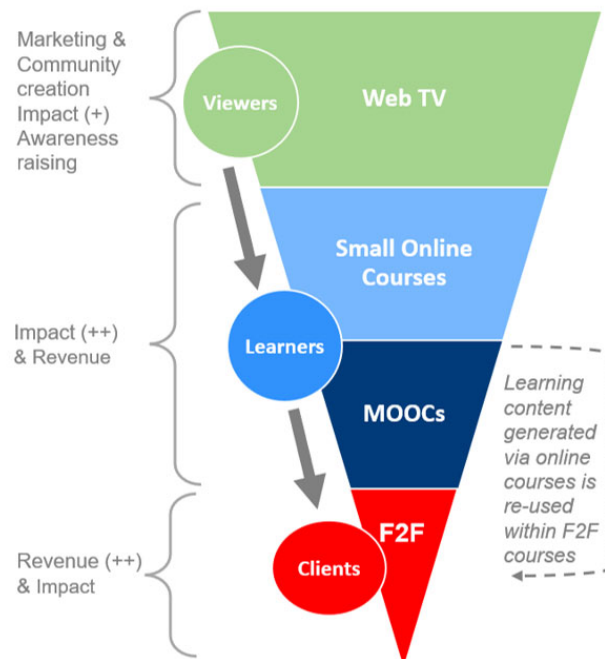

The webpage of EIT Urban Mobility Academy is <https://www.eiturbanmobility.eu/academy/>

Our Academy is a collaborative arena for lifelong learning, helping to build critical capabilities for innovation and transformation. We are training the next generation of urban mobility practitioners, needed by the urban mobility ecosystem of the future. Our programmes are intersectoral, interdisciplinary, international, and entrepreneurial.

The Competence Hub is the Professional Training Unit within EIT Urban Mobility Academy. Given the many digital and ecological transformations that the mobility sector and European cities must overcome, EIT Urban Mobility Academy’s Competence Hub develops high-quality, innovative, and adaptable trainings for forward-thinking professionals and organizations.

The Competence Hub provides a customized and accessible way for busy professionals — people working for city authorities, public institutions, companies, or start-ups — to learn about the latest topics in mobility and transport.

It operates using a funnel-based freemium model, with four levels and a blended approach to learning. While the first two levels offer easy access and up-to-date knowledge for a broad audience, the third and fourth levels are more tailored and deal with specific projects or topics.

The four layers are:

- **EIT Urban Mobility Academy WebTV:** The WebTV is a compilation of short videos (1 to 10 minutes) produced and diffused on a regular basis. The aim of the WebTV is to connect with a high volume of urban mobility professionals from all sectors, by producing videos that provide short/introductory answers to the many questions they ask themselves when facing new professional challenges or responsibilities and try to research by browsing the internet. See our WebTV videos [here](#), hosted on the EIT Urban Mobility YouTube channel, in a dedicated playlist.
- **E-courses:** our e-courses are fully online asynchronous training courses so that each learner can take/complete them whenever they wish. They fall into 2 categories:
  - **Short Online Courses (SOCs):** These short online courses (30 minutes to 5 hours to complete, over a period of few days or weeks) are developed around mobility topics for professionals that are not covered by existing training programmes and institutions. Our SOC's provide compelling learning contents on important urban mobility issues, trends, tools, etc. The content is fully available for free, so that many urban professionals can benefit from these courses, discover the value that the Competence Hub can bring to them, and leverage our SOC's to become better professionals.
  - **Massive Open Online Courses (MOOCs):** The Competence Hub also offers a second category of e-courses, our "MOOCs for professionals" (10 to 20 hours to fully complete, over a period of a few weeks to months). These longer and more comprehensive e-courses provide more advanced knowledge yet maintaining a strong hands-on and applied focus that urban mobility professionals are looking for. The subjects/topics that are addressed are identified and produced based on the analysis of the knowledge gap within the urban mobility market (public and private sectors), the existing online learning solutions in the professional learning market that are already available, and the appetite/interests for certain specific topics expressed by our target audiences and current learner community.

The majority of our e-courses are available on the Competence Hub's e-learning platform: [www.urbanmobilitycourses.eu](http://www.urbanmobilitycourses.eu). We also have some e-courses available on FutureLearn (EIT Urban Mobility account) as well as Coursera (EIT Urban Mobility Partner Accounts).

- **Face-to-face synchronous courses:** In this fourth/final level of this funnel, we build "custom" online/on-site/blended courses for urban mobility organisations or for specific cohorts of mobility professionals, in order to allow them to overcome specific challenges. These courses are primarily delivered synchronously and generate revenue. By leveraging our unique community of partners (top European universities, innovation centres and consultancies) and experts, we probe a wide variety of course topics and formats with cities, mobility companies, and transport authorities. We then replicate/upgrade/upscale (at a national and/or European level) those courses that generate the highest levels of impact/satisfaction and that can best contribute to EIT Urban Mobility's financial sustainability.

In 2020 and 2021, around 96 WebTV videos, 19 SFOCs, 11 MOOCs and 7 F2F trainings were developed in collaboration with many European partners (universities, innovation centres, consultants, experts, etc.) and address a wide variety of sustainable urban mobility topics/challenges.

## 2. General objectives and scope of work

### 2.1 General objectives

By the present procurement procedure, the EIT KIC Urban Mobility S.L. hereby being referred to as “the EIT UM” or as “EIT UM” is aiming to identify one digital marketing agency capable of:

- Supporting the development of a new Academy WebTV platform in 2022 – Work Package 1.
- Assisting the Competence Hub on paid social media promotion of the WebTV in 2022 – Work Package 2.

**With respect to Work Package 1:** As presented in the previous chapter, the Academy WebTV is a compilation of short videos (1 to 10 minutes) that provide short/introductory answers to the many questions urban mobility professionals ask themselves when facing new professional challenges or responsibilities.

Today, the WebTV videos are hosted in a playlist on the EIT Urban Mobility YouTube channel. In order to make the funnel model presented above and our learning experiences a commercial success, the Competence Hub wished for the WebTV (as the first level of the funnel model) to attract a very high number of viewers and to build a community of urban mobility professionals/enthusiasts. At the end of 2021, thanks to all the actions run between June and December 2021 with the assistance of the digital marketing agency Passion Digital, the EIT Urban Mobility Competence Hub managed to amplify the WebTV videos. It gathered more than 830,000 video views (with 4 videos above 100K and 6 videos between 10K and 100K), at least 7,600 clicks on the link in the YouTube description to the course page (<https://urbanmobilitycourses.eu/>).

But the WebTV is facing a series of limitations to reach a large community. Having the WebTV hidden in a playlist in the EIT Urban Mobility does not allow us to guide the viewer easily through our content, to reshare/organise relevant content for urban mobility professionals available on the platform (impossible cross-fertilisation between our channel and other YouTube channels), to encourage interactions between the viewers/potential learners, to have a coherent video content following the same purpose (increase the viewership and build a community), to improve the UX/UI experience and build more engaging and intuitive learning environment where all the videos are organised by thematic or format.

Therefore, the supplier will support the Competence Hub achieve the following goals. It is important that the selected provider also fully understands the Competence Hub’s branding and operational constraints, as it must comply, at all times, with EIT Urban Mobility’s visual, functional, operational and communicational standards.

- Create a new YouTube channel to host the WebTV videos
- Optimise the Academy WebTV for search engine (SEO) and User Experience (UX) to get more organic traffic and increase the visibility of the Competence Hub's videos and courses.
- Plan a digital marketing campaign (organic social media strategy and paid media) which complies with the Competence Hub's visual, functional, and communicational standards.
- Measure the performance of the digital marketing campaign, and track viewers' interests, profiles, consumption patterns, etc.
- Improve interactivity with/between the viewers of the YouTube channel to create a community of urban mobility professionals or enthusiasts, while gathering feedbacks to better understand their learning needs.
- Attract a significant WebTV viewer audience with the 54 videos to be produced in 2022 (6+ videos of 100K+ views and 15+ videos of 10K+ views).
- Reach 500 subscribers by the end of December 2022 and have at least 8,000 clicks from our videos to our courses.
- Have 2,300 participants complete our SOCs and MOOCs, considering that 5-10% registered learners generally complete asynchronous online courses.

**With respect to Work Package 2:** the supplier will support the Competence Hub on the paid social media promotion itself.

- Identifying the Competence Hub's needs in terms of media spend to get conclusive results and achieve Competence Hub's goals in 2022.
- Engaging with the relevant media networks so to undertake the digital marketing campaigns.
- Handling the media spend for the Competence Hub until 17 December 2022.

## 2.2. Detailed scope of work

The proposal and the scope of work to be presented should demonstrate the supplier's ability to support EIT Urban Mobility Competence Hub in defining and delivering a successful digital marketing strategy and the resulting paid social media promotion activities to achieve the objectives set up in this RFP. To do so, it should address/cover the following elements. The supplier is also encouraged to include any other additional information he/she considers relevant.

### 2.2.1 Work Package 1: Development of a new Academy WebTV platform

## Preliminary knowledge exchange meeting(s)

The supplier will actively participate and facilitate discussion during multiple Preliminary Knowledge Exchange Meeting(s) so to fully understand the realities, complexities, goals, and challenges of EIT Urban Mobility Competence Hub and of EIT Urban Mobility. A kick-off meeting with the Communication Department of EIT Urban Mobility must be organised, for the supplier to get familiar with all the EIT requirements which will need to be complied with, and agree on detailed scope of work, formalise ways of working, reporting framework, KPIs, etc.

## Content optimisation of the courses page

Most of our online courses are hosted on the website Urban Mobility Courses (which can be found here). To make the funnel model work, the supplier will assist us on optimising the content on the website, on implementing the relevant meta tags and key words, but also on tracking the users and their behaviour on the website.

## Set up of new YouTube account

Once the preliminary knowledge exchange meetings are finalised, the supplier will use the market analysis done in 2021 as a basis to gather more information on the Competence Hub's market, the trending topics and keywords around urban mobility, the key players in the market, the audience(s). The supplier will then handle the design of this channel (logo, banner, visual identity), and will provide recommendations in terms of channel structure (such as the number and the names of the playlists within this new channel), and in terms of search engine optimisation (SEO). Also, he/she will implement the tracking of the users from the videos to the website Urban Mobility Courses.

The supplier will provide examples of having done this type of work in the past.

If the design of the logo, the banner and the whole visual identity of the new YouTube channel is handled by a third party, the supplier will be asked to prepare an extensive brief based on its work of identification and present it back to the Competence Hub.

## Digital strategy

In order to grow the Competence Hub's reach, the supplier will plan a digital marketing strategy (organic and paid) suited to the Competence Hub's needs and goals and according to the requirements listed in this Call for Proposal document and detailed during the preliminary *knowledge exchange meeting(s)*.

Therefore, the supplier will create a social media content calendar for 2 new social media profiles (LinkedIn and Twitter), assist us on the content strategy and create posts for social media.

## Account Management and ways of working

The supplier must include in the proposal a way of working/framework to ensure the Competence Hub is informed and involved on the work happening in the account. The supplier will include in the response information on the people that will be working on their account, the roles and responsibilities and background of each of them, as well as the name of the main point of contact.

## Campaign Measurements and Decision Making

The supplier will measure and report in detail the performance of the digital marketing campaign to the Competence Hub, from the launch until the end. It will also proactively suggest any decision that would ensure the success and the impact of the digital marketing campaign.

The supplier will identify relevant KPIs to measure against and provide a reporting framework that is available 24/7 and transparent in terms of performance, costs, and next steps.

### 2.2.2 Work Package 2: Paid social media promotion

According to the requirements listed in this Call for Proposal document and detailed during the preliminary knowledge exchange meeting(s), the supplier will recommend a media spend to achieve the Competence Hub's goals. The supplier will need to provide a set of KPIs to focus on and a forecast of results expected.

Also, the supplier will engage with the relevant media networks so to undertake the digital marketing campaigns.

Once validated by the Competence Hub, the supplier will handle the expense in media spend until 17 December 2021. This media spend could be adjusted over time, following the performance of the campaign(s) on social media.

### SERVICE AGREEMENT

**This Service Agreement (“Agreement”) is hereby made by and between:**

**EIT Urban mobility /UM/ [EIT Urban Mobility s.l]**, a private limited company, having its registered office and place of business at [Pere IV, 362. 08019, Barcelona. Spain], with company registration number [Temporary registration number: 118237] and VAT number [B67513630], legally represented herein by [name of representative], acting as [position of the representative]; hereinafter referred to as: the **‘Contracting Party’**;

and

**[Company name]**, a private limited company, having its registered office and place of business at [Company’s address], with company registration number [Company’s registration number] and VAT number [Company’s VAT number], legally represented herein by [name of representative], acting as [position of the representative]; hereinafter referred to as: the **‘Supplier’**;

Hereinafter jointly referred to as: the ‘Parties’ or individually as a “Party”;

#### **WHEREAS:**

*EIT UM is an association whose funds are used to promote innovation, entrepreneurship and education in the field of urban mobility;*

EIT UM has launched a procurement procedure for the performance of certain Services described in Annex 1 to this Agreement, via a tender referred to in Annex 1 (“**EIT UM Tender**”) and Supplier has been selected as Service Provider for EIT UM for such Services, based on Supplier’s Offer as referred to in Annex 1.

Supplier has knowledge and experience in performing the aforementioned Services described in Annex 1, on the basis of a temporary engagement (hereinafter: the **‘Services’**);

Supplier is willing and able to provide the Services to EIT UM, as further provided for in this Agreement;

## **NOW, THEREFORE, THE PARTIES HAVE AGREED AS FOLLOWS:**

### **Structure of the Agreement and precedence**

This Agreement consists of the body of this Agreement and Annex 1 attached to this Agreement.

The body contains standard general provisions applicable to all Services purchased by EIT UM from Supplier under this Agreement.

Annex 1 contains the description of the Services and the time schedule for the delivery of such Services (extracted from Supplier's Offer), as well as additional specific conditions and details adapted to the type of Services purchased by EIT UM from Supplier under this Agreement.

Both the body and Annex 1, as well as the EIT UM Tender (as referred to in Annex 1) form the Agreement.

In case of discrepancy between the description of Services and time schedule in the EIT UM Tender and the description of Services and time schedule in Annex 1, the EIT UM Tender shall prevail. In case of discrepancy between a provision in the body and a provision in Annex 1, the provision in the body shall prevail unless the deviating provision in Annex 1 states expressly that it is specifically agreed by both Parties as being in deviation of a specific provision of the body and refers clearly to the provision of the body concerned.

### **Ordering of Services, non-applicability of Supplier's (standard) terms and conditions**

Supplier does not commit to provide the Services exclusively to EIT UM, unless and to the extent provided in Annex 1 for certain specific types of Services.

The contractual relationship between EIT UM and Supplier shall solely be governed by the terms and conditions of this Agreement. EIT UM is therefore not bound by and expressly rejects Supplier's general conditions of services and any additional or different terms or provisions that may appear on any proposal, quotation, price list, acknowledgment, invoice, packing slip or the like used by Supplier.

### **Performance of the Services, organization, quality, timely delivery, subcontracting, reporting of progress, acceptance, changes**

With due observance of the other provisions of the Agreement, Supplier shall perform the Services specified under Annex 1 for EIT UM under this Agreement, within the time schedule specified under Annex 1.

Supplier agrees to perform the Services by exercising due skill, speed and care, at a level generally required of well-reputed Suppliers in the same field as the one covered by this Agreement and shall make every effort to the best of Supplier's abilities to serve the interests of EIT UM as much as possible.

Supplier is free to organise the way it provides the Services and the timing thereof autonomously and at its own discretion without supervision or authority of EIT UM, (i) provided

the Services are performed accurately and diligently and in accordance with the requirements of this Agreement, including the timely delivery of the Services as specified under Annex 1, and (ii) subject to specific requirements as may be stated in Annex 1 regarding the way the Services shall be provided. Supplier may conduct its business activities from its own premises but may be requested to operate from EIT UM's premises whenever it is necessary for the performance of the Services. Supplier shall arrange their own travel, should they need to travel in order to perform the Services. When performing the Services, Service Provider shall use its own tools and materials, work forces. Supplier shall be fully responsible for the proper execution of this Agreement in all respects.

Supplier shall use personnel who possess the qualifications and experience necessary for the performance of the Services. Additional requirements relating to personnel may be provided in Annex 1, as the case may be.

Unless otherwise specifically provided under Annex 1, Supplier may subcontract part of the provision of the Services to subcontractors, provided such subcontractors are contractually bound by similar obligations as under this Agreement, and provided Supplier has disclosed the elements of the Agreement to be subcontracted and the identity of the relevant subcontractor to the subcontracting. Supplier remains at all times responsible for the work performed by its subcontractors and for the acts, defaults and negligence of such subcontractors, and no subcontract shall create any contractual relationship between any subcontractor and EIT UM. Additional requirements relating to subcontracting may be provided in Annex 1, as the case may be.

In order for EIT UM and Supplier to monitor the proper performance of the Services throughout the Term of the Agreement, Supplier shall report to EIT UM progress of the performance of the Services, in writing, at intervals and under conditions specified under Annex 1. Supplier shall provide EIT UM with time sheets describing the tasks performed by Supplier and the time spent on each task, pursuant to the regularity provided under Annex 1 and pursuant to the time sheet template provided by EIT UM separately.

If, for whatever reason, Supplier is not able to perform the agreed Services, or is not able to meet the deadlines agreed in Annex 1, Supplier shall notify EIT UM hereof promptly in writing, and shall take any reasonable measure to mitigate the consequences of such situation, in agreement with EIT UM.

Services delivered are subject to the acceptance of EIT UM. EIT UM shall issue a Performance certificate after completion of Services. Should EIT UM fail to reject part or all of the Services provided within 15 (or other deadline set forth in Annex 1) calendar days as from such delivery, on the grounds of a lack of quality or compliance, or because of late delivery, Services shall be considered as accepted. Should EIT UM reject a Service (within the above deadline) because of lack of quality or compliance, and such failure is capable of remedy, Supplier shall re-perform the rejected (part of the) Service promptly (but no later than 5 days in absence of any further instructions) at no additional charge for EIT UM. Should such failure be not capable of remedy (given the type of Service and/or the extent of the failure) or should the delivery have occurred after an essential delivery deadline which renders the Service irrelevant or useless, the Services at stake shall be considered as rescinded, and EIT UM is not obliged to provide any compensation to Supplier for such Services.

Modifications to the Services and/or other provisions of this Agreement may only be agreed by the Parties as per the EIT UM procurement rules, i.e. if:

mutually agreed in writing, and

the need for modification has been brought about by circumstances which a diligent contracting entity could not foresee; and

the modification does not alter the overall nature of the contract; and

any increase in price is not higher than 25 % of the original value of the Agreement. In addition, if several successive increases in price would be agreed, the total cumulating of such successive increases shall not exceed 25% of the original value of the Agreement; and

modifications above 10% of the original value of the Agreement should only amend specific conditions of the Agreement and be made by way of an amendment to this Agreement signed by both Parties.

### **Compensation, invoicing and payment, expenses**

Supplier is entitled to charge, in respect of Supplier's Services as described under Annex 1, the compensation specified in Annex 1 per Service.

Supplier may only charge the amounts under Section 4.1. corresponding to the delivered Services, after acceptance of such Services by EIT UM.

Further, Supplier may only charge the amounts under 4.1. subject to (i) EIT UM having received a correct invoice bearing the essential elements below, (ii) all relevant Progress Reports relating to the delivered Services so invoiced having been properly delivered to EIT UM in a timely manner and accepted by EIT UM in writing (as the case may be).

An invoice shall be considered as correct when containing the following essential elements:

the name and address of Supplier

the VAT identification number of Supplier

the VAT identification number of EIT UM

the name and address of EIT UM

the invoice number

the invoice date

the date on which the Services were supplied (provided EIT UM S has accepted them pursuant to this Agreement)

the quantity and type of goods supplied (if applicable)

the nature and type of Services supplied

the following data for every VAT tariff or exemption:

the price per piece or unit, excluding VAT

any reductions that are not included in the price

the VAT tariff that has been applied

the cost (the price excluding VAT)

in case of advance payment: the date of payment, if this is different from the invoice date

the amount of VAT

By deviation to Section 4.2., Supplier may charge the amounts under Section 4.1., at the beginning of each (quarterly, monthly or other) period specified in Annex 1, if such alternative is specifically agreed by EIT UM in Annex 1. In such a case, requirements of Section 4.3. shall apply to each regular invoice.

The payment term applying to Supplier invoices fulfilling the requirements of this Section 4 is fixed in Annex 1.

All amounts corresponding to the compensation per Service, as fixed in Annex 1, shall be fixed tariffs, which may not be revised during the Term of this Agreement, unless specifically provided otherwise in Annex 1 (and within the limits of the price revision mechanisms authorised under the procurement procedure).

Supplier may charge expenses to EIT UM, to the extent Annex 1 provides for such possibility. Expenses shall only be paid if EIT UM has given its written approval prior to Supplier incurring said costs.

If Supplier fails to fulfil any of its obligations under the Agreement, EIT UM may suspend payment to Supplier, upon notice to Supplier.

Supplier hereby unconditionally accepts that EIT UM has the right to set off any amount that EIT UM owes to Supplier under this Agreement, with any amount Supplier owes to EIT UM under this Agreement or any other agreement.

### **Taxes, other contributions, no employment agreement and related indemnification**

All tariffs are gross amounts but exclusive of any value added tax (VAT), sales tax, GST, consumption tax or any other similar tax ("**Taxes**").

If the Services under this Agreement are subject to any other Taxes, Supplier may charge such Taxes to EIT UM, which taxes shall be paid by EIT UM in addition to the compensation for Supplier. Supplier is responsible for paying any applicable Taxes to the appropriate (tax) authorities.

In addition to Section 5.1. and 5.2., all social security, fiscal charges or taxation of any kind and contributions of any kind including but not limited to value added, levies, withholdings, unemployment, medical insurance and insurance of any kind, pensions, national insurance contributions and social security benefits, as imposed by any law, accommodation and travel costs, living expenses, or other expenses and charges arising from this Agreement, will be the exclusive responsibility of Supplier, who must pay such taxes, charges, any kind of expenses and contributions directly to the competent authorities or employees (as the case may be) (altogether called "**Contributions**").

Supplier shall perform the Services hereunder as an independent contractor and not as an agent of EIT UM and nothing contained in the Agreement is intended to create a partnership, joint venture or employment relationship between the Parties irrespective of the extent of economic dependency of Supplier on EIT UM.

Supplier shall indemnify and keep EIT UM harmless from any claims from any authority for payment of any Contributions, including all interest charged in respect thereof, surcharges and possible administrative fines in connection with the Services performed by Supplier on the basis of the Agreement.

### **Intellectual property, ownership and licensing, IP infringement indemnification**

"**Intellectual Property Rights**" or "**IP**" shall mean patents, utility certificates, utility models, (industrial) design rights, copyrights, database rights, trademarks, trade names and trade secrets, including moral rights and any applications, renewals, extensions, combinations, divisions, discontinuations or re-issues of the foregoing.

Unless expressly specified otherwise in Annex 1, should the performance of the Services entail the delivery of (written) advice, reports or any other materials or results ("**Deliverables**"), the ownership of any Intellectual Property Rights in such Deliverables shall be vested in EIT UM.

In addition to Section 6.1., any item provided by EIT UM (or by a third party designated by EIT UM on behalf of EIT UM) and used to perform the Services and/or embedded in the delivered Services, shall at all times remain the ownership of EIT UM S. Supplier shall have no right, title or interest in any of these items nor any trademark or trade name from EIT UM.

By exception to Section 6.1., Intellectual Property Rights owned or controlled by Supplier before the start of the performance of the Services shall remain the ownership of Supplier (“**Background IP**”).

Supplier hereby grant a non-exclusive, royalty-free and fully paid-up, worldwide, irrevocable and perpetual license under its Background IP used for the performance of the Services, to EIT UM, with the right to sublicense, for the use, make, have made, build-in, market, sell, lease, license distribute and/or otherwise dispose of the Services and/or Deliverables.

Supplier shall not, without EIT UM’ prior written consent, publicly make any reference to EIT UM, whether in press releases, advertisements, sales literature or otherwise.

Unless expressly specified otherwise in Annex 1,

Supplier shall indemnify and hold harmless EIT UM, its Affiliates, partners, contractors and employees in respect of any and all claims, damages, costs and expenses (including but not limited to loss of profit and reasonable attorneys’ fees) in connection with any third party claim that any of the Services alone or in any combination or their use infringes any third party IPRs, or, if so directed by EIT UM, shall defend any such claim at Supplier’s own expense. By “Affiliate” is meant any and all companies, firms and legal entities with respect to which now or hereafter EIT UM, directly or indirectly holds 50% or more of the nominal value of the issued share capital or 50% or more of the voting power at general meetings or has the power to appoint a majority of directors or otherwise to direct the activities of such company, firm or legal entity, including but not limitedly through a domination agreement.

EIT UM shall give Supplier prompt written notice of any such claim, provided, however, any delay in notice shall not relieve Supplier of its obligations hereunder except to the extent it is prejudiced by such delay. Supplier shall provide all assistance in connection with any such claim as EIT UM may reasonably require.

If any Services alone or in any combination, provided under the Agreement are held to constitute an infringement or if their use is enjoined, Supplier shall, as directed by EIT UM, but at its own expense: either 1) procure for EIT UM or its users the right to continue using the Services alone or in any combination; or 2) replace or modify the Services alone or in any combination with a functional, non- infringing equivalent.

If Supplier is unable either to procure for EIT UM the right to continue to use the Services alone or in any combination or to replace or modify the Services alone or in any combination in accordance with the above, EIT UM may terminate the Agreement and upon such termination, Supplier shall reimburse to EIT UM the price paid, without prejudice to Supplier’s obligation to indemnify EIT UM as set forth herein.

### **Confidentiality, documents**

Confidential Information means any and all proprietary and/or confidential data and information, such as but not limited to commercial and/or technical information, that EIT UM, its Affiliates or representatives may disclose directly or indirectly, whether in writing or any other form, to Supplier that is related to the Service, which (a) is marked as “confidential” or “proprietary” or words of similar import when disclosed, and (b) is orally disclosed and is summarized and

described as confidential in a writing that is delivered to Supplier within fifteen (15) days of disclosure.

During the period beginning on the Effective Date and continuing for a period of five (5) years thereafter (the “**Confidentiality Period**”), Supplier agrees not to: (i) use EIT UM’ Confidential Information for any purpose other than for the Service; and (ii) disclose EIT UM Confidential Information to any third party, except to its employees and other persons under its supervision that are operating within its organization, including without limitation, its Partners’ employees who (A) have a legitimate “need to know” to accomplish the Service, and (B) are obligated to protect such Confidential Information pursuant to terms and conditions not less restrictive than those contained in this Agreement. Supplier shall protect EIT UM’ Confidential Information as required hereunder using the same degree of care, but no less than a reasonable degree of care, as Supplier uses to protect its own confidential information of a like nature.

Supplier’s obligations above shall not apply to any data or information that it can prove: (a) is lawfully available to EIT UM, prior to the time of receipt from EIT UM as verified by written records; (b) is or becomes publicly available without violation of this Agreement or any other obligation of confidentiality and through no act or omission of Supplier; (c) is lawfully furnished to Supplier by a third party without use or disclosure restrictions; or (d) is developed by Supplier without use of or reference to any of EIT UM’ Confidential Information. Furthermore, a disclosure by Supplier that is required pursuant to any judicial or governmental proceeding shall not be considered a breach of this Agreement, provided that Supplier promptly after learning of such action shall notify, to the extent permitted by applicable law, EIT UM thereof to give Supplier the opportunity to contest disclosure or to seek any available legal remedies to maintain such information in confidence.

Supplier is not permitted - alone or with or through others – to remove, dispatch, transmit or allow any third parties to inspect, use or otherwise have access to any property belonging to EIT UM or any of its Affiliates, including but not limited to any notes, drawings, letters, formulas, recipes, other documents and/or any copies thereof, tools, designs, products manufactured or (copies of) computer files or other data carriers, unless EIT UM has given its prior written permission to any such action.

EIT UM shall remain the owner of all property it has made available to Supplier in connection with this Agreement.

Supplier shall make all property belonging to EIT UM (or its Affiliates) such as, but not limited to any notes, drawings, letters, formulas, recipes, other documents and/or copies of such matters, tools, models, finished products, (copies of) automated files or other data carriers, which come into its possession during the term of this Agreement, available to EIT UM in good condition immediately upon initial request, but in any case on the day on which the Agreement ends.

## **Personal data**

For the purpose of this Agreement,

“**Personal Data**” shall mean any and all information relating to an identified or identifiable individual, including but not limited to EIT UM current or former employees, employee family

members, dependents or beneficiaries, customers, consumers, suppliers, business partners or contractors;

**“Processing”** shall mean any operation or set of operations performed or to be performed upon Personal Data, whether or not by automatic means, such as creation, access, collection, recording, organization, storage, loading, employing, adaptation or alteration, retrieval, consultation, displaying, use, disclosure, dissemination or otherwise making available, alignment or combination, blocking, erasure or destruction (hereinafter also referred to as a verb **“Process”**).

Where Supplier in the performance of the Agreement Processes Personal Data, then Supplier agrees and warrants that Supplier shall:

comply with all privacy and data protection law and regulations applicable to its Services;

Process Personal Data only (i) on behalf of and for the benefit of EIT UM, (ii) in accordance with EIT UM’ instructions, and (iii) for the purposes authorized by this Agreement or otherwise by EIT UM, and (iv) insofar necessary for the Services rendered to EIT UM and as permitted or required by law;

maintain the security, confidentiality, integrity and availability of the Personal Data;

implement and maintain appropriate technical, physical, organizational and administrative security measures, procedures, practices and other safeguards to protect the Personal Data against (i) anticipatable threats or hazards to its security and integrity; and (ii) loss, unauthorized access to, or acquisition or use of or unlawful Processing; and

promptly inform EIT UM of any actual or suspected security incident involving the Personal Data.

To the extent that Supplier allows a (sub)contractor to process the Personal Data, Supplier shall ensure that it binds such (sub)contractor to obligations which provide a similar level of protection, but in no way less restrictive, as this Section 8.

Supplier shall, upon the termination of the Agreement, securely erase or destroy all records or documents containing the Personal Data. Supplier accepts and confirms that it is solely liable for any unauthorized or illegal processing or loss of the Personal Data, if Supplier fails to erase or destroy the Personal Data upon termination of the Agreement.

Supplier shall indemnify and hold harmless EIT UM, their officers, agents and personnel from any damages, fines, losses and claims arising out of a breach of this Section 8.

### **Liability, indemnification, insurance**

Supplier shall indemnify and hold harmless EIT UM, its Affiliates, agents and employees, from and against all suits, actions, legal or administrative proceedings, claims, demands, damages, judgments, liabilities, interest, attorneys’ fees, costs and expenses of whatsoever kind or nature (including but not limited to special, indirect, incidental, consequential damages), whether arising before or after completion of the performance of the Services covered by the Agreement,

in any manner caused or claimed to be caused by the acts, omissions, faults, breach of express or implied warranty, breach of any of the provisions of this Agreement, or negligence of Supplier, or of anyone acting under its direction or control or on its behalf, in connection with Services or any other information furnished by Supplier to EIT UM under the Agreement.

Supplier warrants that it has taken out sufficient insurance against the aforementioned damage, costs and interest, or has made a sufficient provision for this purpose and is obliged to fully disclose to EIT UM immediately upon initial request all the (policy conditions of the) aforementioned insurance(s) and/or provisions. Supplier shall indemnify EIT UM and shall pay its insurance proceeds to EIT UM and furthermore indemnify for the excess amount of the total claim of damages that is not covered by the insurance of Supplier or any other insurance. EIT UM shall be entitled to take legal action against Supplier.

Neither Party excludes or limits its liability for death or personal injury arising from its own negligence, fraud, breach of confidentiality or for any liability that cannot by law be excluded or limited.

Subject to Section 9.3 In no event shall EIT UM be liable under any theory of liability, for indirect, incidental, special, consequential or punitive damages, which includes without limitation damages for lost profits or revenues, lost business opportunities, loss of image or lost data, even if EIT UM has been advised of the possibility of such damages and in no event shall EIT UM be liable to Supplier, its successors or assigns for damages in excess of the amount due to Supplier for complete performance under the Agreement, less any amounts already paid to Supplier by EIT UM.

Subject always to Section 9.3., depending on the nature of the Services and the liability risk associated therewith, a cap to the liability of Supplier under this Agreement may apply only if expressly mutually agreed in writing in [Annex 1](#).

### **Suspension, termination of the Agreement**

The Agreement is entered into as from the Effective Date specified in [Annex 1](#) and shall end by operation of law, without the requirement of prior notice of termination, on the date the last of the Services have been delivered by Supplier, accepted and paid by EIT UM (“**Term**”).

As an exception to the above, EIT UM may suspend, withdraw, dissolve or terminate this Agreement fully or partially with immediate effect without incurring any penalty or compensation if and as soon as:

Supplier breaches any of its material obligations under this Agreement and, notwithstanding a written request from EIT UM to repair the current breach and to take appropriate measures to prevent such a breach in the future, fails to comply with such a request within a reasonable deadline fixed by EIT UM in the notice; or

EIT UM, in its reasonable discretion, determines that Supplier is not able to perform the Services as required; or

Supplier fails to provide EIT UM with adequate assurance of performance following request by EIT UM; or

Supplier files a petition for bankruptcy or is declared bankrupt; or

Supplier has become unable to pay its debts as they fall due or make any special arrangement(s) or composition with its creditors;

Supplier enters into voluntary or judicial liquidation;

the business of Supplier ceases to exist or control or ownership is taken over by a third party;

as a result of the termination of the European Programme(s) which requested EIT UM to enter into this Agreement (as the case may be).

As from receipt of a termination notice from EIT UM (under any legal ground), Supplier shall take immediate steps to bring the terminated Services to a closure in a prompt and orderly manner and to reduce expenditure to a minimum.

Supplier may, after giving 14 calendar days written notice to EIT UM, terminate the Agreement if EIT UM:

Fails for more than 120 calendar days to pay Supplier the amounts due after the expiration of the payment term stated in Section 4; or

Consistently fails to meet its material obligations after repeated reminders; or

Suspends the progress of the Services or any part thereof for more than 90 calendar days for reasons not specified in the Agreement, or not attributable to Supplier's breach or default.

### **Safeguarding of EU's financial interest and conflict of interest**

Supplier accepts without reservation that during the implementation of the Agreement and for four (4) years after the completion of the Agreement, EIT UM has the right for the purposes of safeguarding the EU's financial interests, the tender proposal and the Agreement with Supplier may be transferred to internal audit services, the EIT, to the European Court of Auditors, to the Financial Irregularities Panel or to the European Anti-Fraud Office ('safeguarding the EU's financial interests').

Supplier confirms that it shall take all measures to prevent any situation where the impartial and objective implementation of the Agreement is compromised for reasons involving economic interest, political or national affinity, family or emotional ties or any other shared interest ('conflict of interests'). The contractor is obliged to inform EIT UM immediately if there is any change in the above circumstances at any stage during the implementation of the tasks under the Agreement.

### **Miscellaneous**

All notices given under this Agreement shall be given in writing. Any subsequent change of address shall be promptly notified by the Party concerned to the other Party and embodied in an amendment to the preamble of this Agreement.

In the event that Supplier is prevented from performing any of its obligations under the Agreement for reason of force majeure (being an event unforeseeable and beyond the control of Supplier) and Supplier has provided sufficient proof for the existence of the force majeure, the performance of the obligation concerned shall be suspended for the duration of the force majeure. EIT UM shall be entitled to terminate the Agreement with immediate effect by written notice to Supplier, immediately if the context of the non-performance justifies immediate termination, and in any event if the circumstance constituting force majeure endures for more than thirty (30) days and, upon such notice, Supplier shall not be entitled to any form of compensation in relation to the termination. Force majeure on the part of Supplier shall in any event not include shortage of personnel or production materials or resources, strikes, not officially declared epidemic or pandemic, breach of contract by third parties contracted by Supplier, financial problems of Supplier, nor the inability of Supplier to secure the necessary licenses in respect of software to be supplied or the necessary legal or administrative permits or authorizations in relation to the Services to be supplied.

Supplier shall not transfer, pledge or assign any of its rights or obligations under the Agreement without the prior written consent of EIT UM. Any such pre-approved, transfer, pledge or assignment shall be null and void and have no effect vis-à-vis such third party.

The rights and remedies reserved to EIT UM are cumulative and are in addition to any other or future rights and remedies available under the Agreement, at law or in equity.

Neither the failure nor the delay of EIT UM to enforce any provision of the Agreement shall constitute a waiver of such provision or of the right of EIT UM to enforce each and every provision of the Agreement.

No course or prior dealings between the parties, no course of performance, and no usage of the trade shall be relevant to determine the meaning of the Agreement and to modify the provisions of this Agreement.

No waiver, consent, modification or amendment of the terms of the Agreement shall be binding unless made in a writing specifically referring to the Agreement signed by EIT UM and Supplier.

In the event that any provision(s) of this Agreement shall be held invalid, unlawful or unenforceable by a court of competent jurisdiction or by any future legislative or administrative action, such holding or action shall not negate the validity or enforceability of any other provisions of the Agreement. Any such provision held invalid, unlawful or unenforceable, shall be substituted by a provision of similar import reflecting the original intent of the clause to the extent permissible under applicable law.

All terms and conditions of the Agreement which are destined, whether express or implied, to survive the termination or the expiration of the Agreement, including but not limited to Intellectual Property, Confidentiality and Personal Data, shall survive.

The Agreement shall be governed by and construed in accordance with the laws of the country or state in which the EIT UM ordering entity is located, as applicable.

Supplier and EIT UM each consents to the exclusive jurisdiction of the competent courts in (i) the country or state in which the EIT UM ordering entity is located; or (ii), at the option of EIT

UM, the jurisdiction of the entity of Supplier to which the order was placed, or (iii), at the option of EIT UM, for arbitration in which case Section 12.12. applies. Supplier hereby waives all defences of lack of personal jurisdiction and forum non-convenience.

If so chosen by EIT UM in accordance with Section 12.11, any dispute, controversy or claim arising out of or in connection with this Agreement, or their breach, termination or invalidity shall be finally settled solely under the International Chamber of Commerce Rules of arbitration, which Supplier and EIT UM declare to be known to them. Supplier and EIT UM agree that: (i) the appointing authority shall be the ICC-International Chamber of Commerce of Paris, France; (ii) there shall be three (3) arbitrators; (iii) arbitration shall take place in the jurisdiction of the EIT UM entity mentioned in the recitals or, at the option of EIT UM, the jurisdiction of the Supplier's entity mentioned in the recitals; (iv) the language to be used in the arbitration proceedings shall be English; and (v) the material laws to be applied by the arbitrators shall be the laws as determined under Section 12.10.

The United Nations Convention on International Sale of Goods shall not apply to the Agreement.
