

Application deadline: 24 October 2022

Consulting and Entrepreneurship Internship (Half-time position)

ABOUT EIT URBAN MOBILITY

EIT Urban Mobility, supported by the European Institute of Innovation and Technology (EIT), acts to accelerate positive change on mobility to make urban spaces more liveable.

EIT Urban Mobility is an initiative of the European Institute of Innovation and Technology (EIT). Since January 2019 we have been working to encourage positive changes in the way people move around cities in order to make them more liveable places. We aim to become the largest European initiative transforming urban mobility. Co-funding of up to € 400 million (2020-2026) from the EIT, a body of the European Union, will help make this happen.

	<i>We create systemic solutions that will move more people around the city more efficiently and free up public space.</i>
	<i>We bring all key players in urban mobility together to avoid fragmentation and achieve more.</i>
	<i>We engage cities and citizens from the word go, giving them the opportunity to become true agents of change.</i>

PROGRAMME DESCRIPTION

EIT Urban Mobility is now building up two related activities for master and PhD students and graduates within the field of urban mobility. Successful candidates will gain industry experience in parallel to developing their start-up ideas.

For students who are soon to be graduated, such as the ones in the final year of their master's, we offer half-time 12-month positions. You will be working for the new Urban Mobility Consultancy being set up by EIT Urban Mobility Academy, as well as getting some support developing your start-up ideas.

The consulting part of the internship aims to give students and new graduates a variety of experiences with EIT Urban Mobility community partners, portfolio start-ups and other external actors. These tasks are either well-defined studies, such as helping to create sustainability strategies for cities, aiding new mobility start-ups with market research, business intelligence, innovation etc., or filling clients' temporary workforce needs.

On the other hand, the Entrepreneurship part aims to support the growth of start-ups founded by students. We offer mentoring in the initial development of your startup ideas, intending to prepare for the next stage of the process after graduation through our other programs designed to foster entrepreneurship among the Urban Mobility graduates (see below). We look for students within the field of urban mobility and related areas and will give priority to students in EIT-labelled master's programmes from any of the EIT KIC organizations. This support is optional, handled in parallel to the paid internship.

Upon graduation, if interested, you have the opportunity to be part of our ***Graduate Consulting and Boosting Entrepreneurship Programme***. You could develop your start-up ideas further with the support of the EIT Urban Mobility Business Creation team, now becoming the largest urban mobility focused start-up hub and impact investor. For start-ups founded as part of this particular programme, Business Creation will take a small equity part, in exchange for providing a quality seal and ensuring inclusion in the largest European urban mobility startup ecosystem.

These positions are open for applications continuously, and fresh applicants will be assessed for hiring at least once every quarter. Applicants for the initial round are planned to be accepted in from November 2022.

REQUIREMENTES

- Students who are currently enrolled in a Master's in the field of Urban Mobility, Sustainability and other related fields. Preference is for EIT-Labelled programmes
- Excellent written and spoken English (C1)
- One or more additional European languages is a plus

CONTRACT TYPE

- Half-time internship for 12 months for soon-to-be-graduated students
- Starting date: Earliest by November 2022
- Salary: € 725 gross monthly

LOCATION

We will start with building up the activities in Barcelona at the EIT Urban Mobility headquarters, and plan to expand operations to our European Hubs within the near future.

APPLICATION PROCESS

EIT Urban Mobility is an equal opportunity employer and values diversity. To build a strong digital Europe that works for everyone it is vital that we have diverse range of skills, knowledge, and experience in the sector. Therefore, we welcome applications from anyone who meets the above criteria and encourage applications from women, ethnic minorities, and other underrepresented groups.

- To apply for this internship, please send a full application form consisting of a letter of motivation highlighting how your skills or experience matches the internship requirements and a current curriculum vitae to internship@eiturbanmobility.eu
- Save the files as “Consulting and Entrepreneurship Internship - First Name Last Name” *in PDF format*.
- Subject of the email: Consulting and Entrepreneurship Internship

Deadline for Applications: 24 October 2022

Data Protection Disclaimer

Your personal data will be processed with utmost care by the EIT KIC URBAN MOBILITY, S.L. or its subsidiaries.

The said processing will allow us to manage the recruitment of the offered positions, and more specifically:

- to enable you to submit your CV to apply for specific jobs;
- to match your details with the job vacancies and to eventually contact you;
- to retain your details and notify you about future job opportunities similar to the specific role for which you have contacted us;
- to answer your enquiries.

You can exercise your data protection rights, writing to recruitment@eiturbanmobility.eu.
