

# BP23-25 calls programme 2023

21 Nov 2022

# Calls programme 2023

---

- Calls Programme sets out the area's **annual strategy of cascading activities**: all funded activities that will be delivered through Calls for proposals/Prizes (Financial Support to Third Parties)
- EIT requirement: the Call programme is a **new DEL to submit to EIT every year and to make it public.**

# Calendar calls launched in 2023

# Calls programme 2023: Academy

# Calls programme 2023 - Academy: second open call

## Type and title of the call

**Regular Second Open call for Academy** for the BP2023-25 to fund the development of new methods, content and business models to improve:

1. Master School
2. The **DTN** \*running operations.
3. Through partner-led projects, as part of our experimental approach to test new ideas, that when shown to work, may be repeated and scaled up.

*\*The DTN segment will be included in the second call for Academy for the BP2023-25 if there is a specific portfolio need*

## Type of applicants

Research institutions, universities, business schools, industry, including consultancy firms and cities.

## Type of activities

### Master School

- Development of innovative teaching methodologies, crucial for the EIT Urban Mobility offer of high-quality education and supporting the EIT labelled programmes.
- Activities meant to raise awareness of the Master School and promote our programmes, such as undergraduate summer schools and challenge-based student competitions.
- Summer Schools \*Not all the types of activities listed above may be included in the call.

### DTN

- Development of new teaching methodologies in innovation and entrepreneurship and courses with a strong business creation component and KTI approach.
- Support to student start-ups activities.

### CHA

- Applied courses with high revenue potential and addressing the EIT non-degree label requirements.
- Flagship F2f courses covering in demand hot topics in UM and skills-development needs of UM professionals. These will be targeted to the manager/director/leadership segment of the UM training market and will be specifically designed to comply with the non-degree EIT label.
- Extension and/or upgrade of successful courses and trainings, including also to cover new geographical areas and languages.
- Marketing and sales development support for new and existing courses, including also with the creation of specific events around cities and countries to generate leads to channel our courses.

*\*Not all the type of activities listed above may be included in the call. New types of activities may be added based on a portfolio needs analysis*

## Call key tentative dates

Launch: July 2023  
Deadline: September 2023  
Start of the projects: January 2024

## Call estimated budget

**TOTAL EIT estimated contribution: 1.4M EUR**  
Master School: approx. 500K EUR  
DTN: approx. 150K EUR  
CHA: approx. 750K EUR

# Calls Programme 2023 - Academy: call for EIT Urban Mobility partners

## Type and title of the call

---

**Call to EIT UM partners** to fund specific activities aimed at addressing a portfolio gap

## Type of activities

---

Specific activities aiming to address a portfolio gap or stretch.  
There can be a portfolio gap when:

- A certain issue has not been adequately covered by the proposals received in the open call.
- When there is a particular request for a customised training/programme targeting a specific unmet need.
- When we require extra assistance to implement and deliver our committed online and face-to-face portfolios.
- When an existing project is successful enough so that it can be improved and scaled up, also with new partners.
- When a partnership is successful enough so that it can work on new collaboration opportunities to meet the portfolio needs.

### The type of activities, amongst others, are:

- Marketing and sales development support for new and existing courses, including also with the creation of specific events around cities and countries to generate leads to channel our courses.
- Extension and/or upgrade of successful courses and trainings, including also to cover new geographical areas and languages.
- Design/production/delivery/promotion/commercialisation of online and applied courses covering in demand hot topics in UM and/or skills development needs of UM professionals.

*\*Not all the type of activities listed above may be included in the call. New types of activities may be added based on a portfolio needs analysis*
