

Application deadline: 1 February 2023

Innovation Internship (IH South)

ABOUT EIT URBAN MOBILITY

EIT Urban Mobility, supported by the European Institute of Innovation and Technology (EIT), acts to accelerate positive change on mobility to make urban spaces more liveable.

EIT Urban Mobility is an initiative of the European Institute of Innovation and Technology (EIT). Since January 2019 we have been working to encourage positive changes in the way people move around cities in order to make them more liveable places. We aim to become the largest European initiative transforming urban mobility. Co-funding of up to € 400 million (2020-2026) from the EIT, a body of the European Union, will help make this happen.

	<p>We create systemic solutions that will <i>move more people around the city more efficiently and free up public space.</i></p>
	<p>We bring all <i>key players in urban mobility together</i> to avoid fragmentation and achieve more.</p>
	<p>We engage <i>cities and citizens from the word go</i>, giving them the opportunity to become true agents of change.</p>

EIT Urban Mobility is divided geographically in 5 different Hubs. One of them is the innovation Hub South that covers the European Mediterranean with headquarters in Barcelona.

ABOUT THE INNOVATION HUB SOUTH

Innovation Hub South, hand-in-hand with key mobility agents and innovative cities from the region, aims to support citizens and help them to reclaim the public space to become greener, safer, and more livable for all.

To do so, long-term urban planning and small-scale infrastructure investments encompassed by tactical urbanism are recognized as an inherent part of the mobility sector. The idea of Superblocks in Barcelona and Toulouse expertise in cutting-edge air mobility solutions serve as a hands-on example of the on-going projects. This is the direction in which the Innovation Hub South would like to move on developing citizen-centered smart cities. Engaging citizens in this mobility transformation is our priority, as developing solutions with and for citizens is crucial to delivering real change.

The Innovation hub South is responsible for developing the business in the following countries: Spain, Portugal, France, Greece, Malta, Xiprus and Albania.

MAIN DUTIES

The **Innovation Intern** will be based in Barcelona and support the Innovation Hub South Team.
