1. Overview of EIT Urban Mobility

EIT Urban Mobility, supported by the European Institute of Innovation and Technology (EIT), acts to accelerate positive change on mobility to make urban spaces more livable.

EIT Urban Mobility is an initiative of the European Institute of Innovation and Technology (EIT). Since January 2019 we have been working to encourage positive changes in the way people move around cities in order to make them more livable places. We aim to become the largest European initiative transforming urban mobility. Co-funding of up to € 400 million (2020-2026) from the EIT, a body of the European Union, will help make this happen.

We create systemic solutions that will move more people around the city more efficiently and free up public space.

We bring all key players in urban mobility together to avoid fragmentation and achieve more.

We engage cities and citizens from the word go, giving them the opportunity to become true agents of change.

The EIT Urban Mobility S.L delivers breakthrough innovations to the market and breeds entrepreneurial talent for economic growth and improved quality of life in Europe. It does this by mobilising a pan-European ecosystem of more than 50 top European corporations, SMEs, start-ups, universities and research institutes constituted into the EIT Urban Mobility Association.

As a Knowledge and Innovation Community (KIC) of the European Institute of Innovation and Technology (EIT), the EIT Urban Mobility S.L is focused on entrepreneurship and is at the forefront of integrating education, research and business by bringing together students, researchers, engineers, business developers and entrepreneurs. This is done in a pan-European network of Co-Location Centers (CLCs), 5 Limited Liability Companies respectively based in Germany, Czech Republic, Denmark, the Netherlands and Spain.

We create systemic solutions that will move more people around the city more efficiently and free up public space.

We bring all key players in urban mobility together to avoid fragmentation and achieve more.

1.1 About EIT Urban Mobility Academy Competence Hub

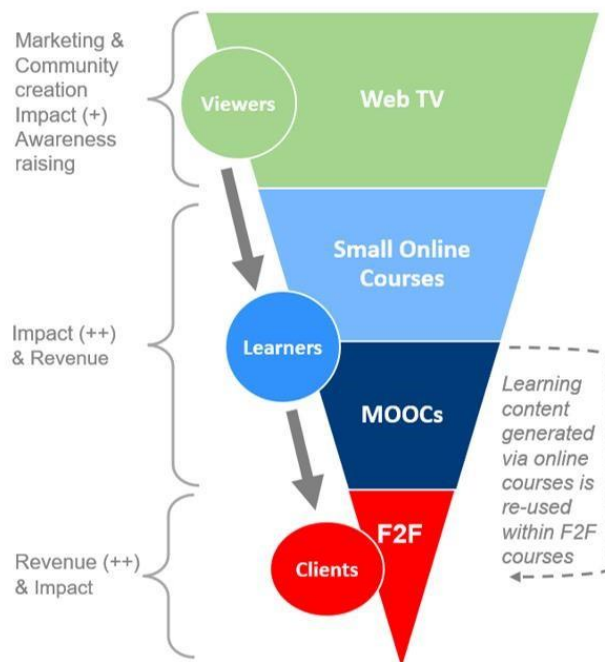

The webpage of EIT Urban Mobility Academy is <https://www.eiturbanmobility.eu/academy/>

Our Academy is a collaborative arena for lifelong learning, helping to build critical capabilities for innovation and transformation. We are training the next generation of urban mobility practitioners, needed by the urban mobility ecosystem of the future. Our programmes are intersectoral, interdisciplinary, international, and entrepreneurial.

The Competence Hub is the Professional Training Unit within EIT Urban Mobility Academy. Given the many digital and ecological transformations that the mobility sector and European cities must overcome, EIT Urban Mobility Academy’s Competence Hub develops high-quality, innovative, and adaptable trainings for forward-thinking professionals and organizations.

The Competence Hub provides a customised and accessible way for busy professionals — people working for city authorities, public institutions, companies, or start-ups — to learn about the latest topics in mobility and transport.

It operates using a funnel-based freemium model, with four levels and a blended approach to learning. While the first two levels offer easy access and up-to-date knowledge for a broad audience, the third and fourth levels are more tailored and deal with specific projects or topics.

The four layers are:

- Urban Mobility Explained (UMX), previously called WebTV: UMX is a YouTube channel hosting a series of short and easy-to-follow videos (1 to 10 minutes) that showcase cutting-edge practices in urban mobility throughout Europe and beyond. It has been designed to highlight thought-provoking perspectives and key competencies needed for the successful delivery of urban mobility solutions and

to close the urban mobility knowledge gap. Since September 2022, every Tuesday, a new video is published on UMX on a different mobility topic. See our UMX videos [here](#).

- E-courses: our e-courses are fully online asynchronous training courses so that each learner can take/complete them whenever they wish. They fall into 2 categories:
 - Short Online Courses (SOCs): These short online courses (30 minutes to 5 hours to complete, over a period of few days or weeks) are developed around mobility topics for professionals that are not covered by existing training programmes and institutions. Our SOCs provide compelling learning contents on important urban mobility issues, trends, tools, etc. The content is fully available for free, so that many urban professionals can benefit from these courses, discover the value that the Competence Hub can bring to them, and leverage our SOCs to become better professionals.
 - Massive Open Online Courses (MOOCs): The Competence Hub also offers a second category of e-courses, our “MOOCs for professionals” (10 to 20 hours to fully complete, over a period of a few weeks to months). These longer and more comprehensive e-courses provide more advanced knowledge yet maintaining a strong hands-on and applied focus that urban mobility professionals are looking for. The subjects/topics that are addressed are identified and produced based on the analysis of the knowledge gap within the urban mobility market (public and private sectors), the existing online learning solutions in the professional learning market that are already available, and the appetite/interests for certain specific topics expressed by our target audiences and current learner community.

The majority of our e-courses are available on the Competence Hub’s e-learning platform: www.urbanmobilitycourses.eu. We also have some e-courses available on FutureLearn (EIT Urban Mobility account) as well as Coursera (EIT Urban Mobility Partner Accounts).

- Applied learning: In this fourth/final level of this funnel, we build “custom” online/on-site/blended courses for urban mobility organisations or for specific cohorts of mobility professionals, in order to allow them to overcome specific challenges. These courses are primarily delivered synchronously and generate revenue. By leveraging our unique community of partners (top European universities, innovation centres and consultancies) and experts, we probe a wide variety of course topics and formats with cities, mobility companies, and transport authorities. We then replicate/upgrade/upscale (at a national and/or European level) those courses that generate the highest levels of impact/satisfaction and that can best contribute to EIT Urban Mobility’s financial sustainability.

2. General objectives and scope of work

2.1. General objectives

By the present procurement procedure, EIT Urban Mobility aims at appointing several external video suppliers capable of supporting the online course production of the Competence Hub department. Video suppliers may assist in a wide array of tasks, such as script writing, shooting, editing, handling full video production, creation of webinars etc. All services will be under request. Proposals that only cover some of the activities will also be considered, as some UMC video production projects are partially internalised.

Within the EIT Academy department, the Competence Hub aims to fill the urban mobility knowledge gap and makes mobility more efficient and sustainable, by promoting systemic and behavioural change, with a strong innovation and entre/intrapreneurship focus. The Competence Hub is impact/market oriented to:

- Capacity building (create/occupy new jobs)
- Skill development (lead the transformation)

Within the Competence Hub, the role of the E-courses team is to provide high quality and updated online courses that help understand urban mobility, giving the freedom to the participants to take the course at their own pace.

Via its website [Urban Mobility Courses](#) (hereinafter referred to as UMC), the Competence Hub offers 40+ courses and provides the following features:

- Understand and analyse urban mobility concepts, trends, challenges, transformations.
- Asynchronous courses, accessible from anywhere
- Practical and impact-oriented
- Free content, EIT Urban Mobility Academy certification
- In collaboration with recognised mobility experts and thought-leaders from top universities/consultancies
- Additional e-courses published on Coursera and FutureLearn.

In 2023, the Competence Hub plans to produce a total of 8 online courses. In consequence, there is an existing need of externalising part of the video production projects to make sure all the courses are delivered before 31 December 2023.

2.2. Detailed scope of work

The subject of the agreement is to develop a portfolio of video suppliers for the UMC website E-course production projects. Suppliers might handle part of the video production process or the entire video production process (always under the supervision of EIT Urban Mobility), depending on the Competence Hub's needs. The proposal to be presented should demonstrate the supplier's ability to support EIT Urban Mobility Competence Hub to achieve the objectives set up in this Request for Proposals. To do so, it should cover the elements mentioned below. The supplier is encouraged to include any other additional information considered relevant.

Preliminary Kick-off Meeting

The supplier will actively participate and facilitate discussion during a Preliminary Kick-off Meeting to fully understand the realities, specificities, goals, and challenges of EIT Urban Mobility Competence Hub and of EIT Urban Mobility. This meeting will also allow the supplier to get familiar with all the EIT requirements which will need to be complied with, agree on detailed scope of work, formalise ways of working, etc.

UMC E-courses video production projects can have different formats (interviews, animation, street recording, studio, webinars, animated drawing, vlog, live action, etc), lengths (1-10min), and locations (Europe and beyond). Depending on each UMC E-course video production project, the Competence Hub is looking for video suppliers that are able to cover a specific part of the video production project (such pre-production, production, and/or post-production), or, in other cases, to handle the entire video production process under our supervision or the supervision of the e-learning agency. As detailed below, the proposal presented by the supplier should make it clear whether the production support provided will be partial or total, based on their ability/experience and interest.

Video production (pre-production, production, post-production, webinars)

- Preferably, if the video supplier handles the entire video production process under our supervision, the video supplier will detail within the proposal, the different services provided as part of this production process, with the associated prices. In this case, the following elements will be required in the proposal, for review by the Competence Hub:
 - Video topic and angle
 - Pre-production document, with the production plan, suggestions of b-rolls to illustrate the video topic, some information regarding the visual approach, some information regarding the equipment, or any other information the supplier and/or the Competence Hub believe is relevant.
 - First version of the video, in a MP4 format. Several versions are to be expected, so the Competence Hub is able to provide the relevant feedback and the relevant changes/corrections are implemented by the supplier, so as to reach full-validation by the Competence Hub.

- Additional, depending on agreement: Final video delivery with a .srt file with the English subtitles (to be provided in all cases, even if the interviewees are speaking in English). If the supplier cannot provide a suitable level of English in the subtitles, she/he will have to procure the support of an external translator at her/his own cost.
- Additional, depending on agreement: A few high-quality still images of the final video that illustrate the topic the best. These images will be used by the Competence Hub to create the UMC thumbnails for the video.
- Otherwise, if the video supplier handles part of the video production process under our supervision, here is a non exhaustive list of services that the Competence Hub wishes to procure:
 - Pre-production: ideation, topic research, script writing, shot list/storyboard creation, budget definition, interviewee identification and booking, location scouting, shooting permit request, equipment rental, video crew hiring, production schedule, transport and accommodation booking, etc.
 - Production: filming interviews, b-rolls shooting, behind-the-scene images shooting, drone operating, drawing, etc.
 - Post-production: video editing, sound editing, UMC graphics elements integration, motion graphics creation, translation (interviews, subtitles, etc.), color grading, VFX, thumbnail creation, social media video editing, etc.

In both cases (partial production/full production), the suppliers may add additional services that have not been identified above, provided they are relevant and therefore will be covered by the current procurement procedure.

Note: the video supplier will consider the branding requirement of UMC (title, lower thirds, logo, summary slide, etc.). Therefore, the Competence Hub will send before the post-production a Branding Pack detailing all the graphic elements to include in each video.

2.3. Location, timing, planning and reporting

2.3.1 Start date & period of implementation

The intended start date is, at the latest, 18 July, 2023, and is expected to last, at the latest, until 31 December 2023.

EIT Urban Mobility intends to use the direct award procedure with the winners of the present procedure for covering the needs of additional 24 months in the course of 2024 and 2025 once the budget is known and all resources of the present contract are used up.

2.3.2 Location

This project doesn't have a specific office location during the implementation – the provider should mainly provide assistance from his/her home base of operation. We intend to work under a virtual environment as an organisation. Video conferences and telephone conferences are preferred options for team meetings.

All costs borne for travels related to the tasks shall be included in the proposal.

On a needed basis, the provider can be called for specific assignments either to EIT Urban Mobility or its Innovation Hubs or to its partners or any other project site designated by EIT Urban Mobility. All costs borne for such travels shall be subject to reimbursement detailed later by EIT Urban Mobility if justified.

2.3.3 Payment terms

Available maximum fund for the requested services is 40,000 EURO (VAT excluded).

Available maximum rate per fully produced video is 5,000 EUR (VAT excluded).

This rate is subject to:

- Location;
- Equipment;
- Video crew;
- Licensing of copyright;
- Type of service.

The services should be invoiced in accordance with the performance and prior to 31st December of the service deliverable year.

Payments shall be made upon the acceptance of the invoice.

2.4. Deliverables

If the video supplier handles the entire video production process under our supervision or the e-learning agency supervision, the video supplier will deliver for each video production, at a minimum, the following to the EIT Urban Mobility Competence Hub. If relevant, additional deliverables should be included and detailed in the proposal.

- A pre-production document sent to the Competence Hub for validation, including (when relevant) the suggestions of b-rolls to illustrate the topic of the video, more information regarding the visual approach and the equipment that will be used to produce the video. This document could also include examples of previous works and references. If the shooting dates are already confirmed, they can already be included in the proposal. If not, it will be agreed later by the three parties involved (Competence Hub, video provider and interviewees).

- A first version of the edited video will be sent to the Competence Hub or the e-learning agency at the end of the postproduction phase for feedbacks. Several versions can be expected.
- A final version of the edited video will be sent to the Competence Hub or the e-learning agency after the corrections implementations for final approval.
- Additional, depending on agreement: A .srt file with the English subtitles (even if the interviewees are speaking in English) will be prepared by the supplier, ready to be implemented by the Competence Hub on YouTube.
- Additional, depending on agreement: A few good still images of the final video that illustrate the topic the best will also be sent together with the final version and the .srt file. These images could be used afterwards by the Competence Hub to create the YouTube thumbnails.

If the video supplier handles part of the video production process, the deliverables will be agreed before the start of the pre-production and correspond to one or various elements of this non exhaustive list of services:

- Pre-production: ideation, topic research, script writing, shot list/storyboard creation, budget definition, interviewee identification and booking, location scouting, shooting permit request, equipment rental, video crew hiring, production schedule, transport and accommodation booking, etc.
- Production: filming interviews, b-rolls shooting, behind-the-scene images shooting, drone operating, drawing, etc.
- Post-production: video editing, sound editing, UMC graphics elements integration, motion graphics creation, translation (interviews, subtitles, etc.), color grading, VFX, thumbnail creation, social media video editing, etc.
- Proposal Process.

Total score: max. (total technical score + total financial score)

If substantial errors, irregularities, or fraud are discovered after the award of the Contract, EIT Urban Mobility may refrain from concluding the Contract.

The suppliers shall take all measures to prevent any situation where the impartial and objective implementation of the contract is compromised for reasons involving economic interest, political or national affinity, family or emotional ties or any other shared interest ('conflict of interests'). With due observance of the other provisions of the Agreement, Supplier shall perform the Services specified under Annex 1 for EIT UM under this Agreement, within the time schedule specified under Annex 1.

Supplier agrees to perform the Services by exercising due skill, speed and care, at a level generally required of well-reputed Suppliers in the same field as the one covered by this Agreement and shall make every effort to the best of Supplier's abilities to serve the interests of EIT UM as much as possible.

Supplier is free to organise the way it provides the Services and the timing thereof autonomously and at its own discretion without supervision or authority of EIT UM, (i) provided the Services are performed accurately and diligently and in accordance with the requirements of this Agreement, including the timely delivery of the Services as specified under Annex 1, and (ii) subject to specific requirements as may be stated in Annex 1 regarding the way the Services shall be provided. Supplier may conduct its business activities from its own premises but may

be requested to operate from EIT UM's premises whenever it is necessary for the performance of the Services. Supplier shall arrange their own travel, should they need to travel in order to perform the Services. When performing the Services, Service Provider shall use its own tools

and materials, work forces. Supplier shall be fully responsible for the proper execution of this Agreement in all respects.

Supplier shall use personnel who possess the qualifications and experience necessary for the performance of the Services. Additional requirements relating to personnel may be provided in Annex 1, as the case may be.

Unless otherwise specifically provided under Annex 1, Supplier may subcontract part of the provision of the Services to subcontractors, provided such subcontractors are contractually bound by similar obligations as under this Agreement, and provided Supplier has disclosed the elements of the Agreement to be subcontracted and the identity of the relevant subcontractor to the subcontracting. Supplier remains at all times responsible for the work performed by its subcontractors and for the acts, defaults and negligence of such subcontractors, and no subcontract shall create any contractual relationship between any subcontractor and EIT UM. Additional requirements relating to subcontracting may be provided in Annex 1, as the case may be.

In order for EIT UM and Supplier to monitor the proper performance of the Services throughout the Term of the Agreement, Supplier shall report to EIT UM progress of the performance of the Services, in writing, at intervals and under conditions specified under Annex 1. Supplier shall provide EIT UM with time sheets describing the tasks performed by Supplier and the time spent on each task, pursuant to the regularity provided under Annex 1 and pursuant to the time sheet template provided by EIT UM separately.

If, for whatever reason, Supplier is not able to perform the agreed Services, or is not able to meet the deadlines agreed in Annex 1, Supplier shall notify EIT UM hereof promptly in writing, and shall take any reasonable measure to mitigate the consequences of such situation, in agreement with EIT UM.

Services delivered are subject to the acceptance of EIT UM. EIT UM shall issue a Performance certificate after completion of Services. Should EIT UM fail to reject part or all of the Services provided within 15 (or other deadline set forth in Annex 1) calendar days as from such delivery, on the grounds of a lack of quality or compliance, or because of late delivery, Services shall be considered as accepted. Should EIT UM reject a Service (within the above deadline) because of lack of quality or compliance, and such failure is capable of remedy, Supplier shall re-perform the rejected (part of the) Service promptly (but no later than 5 days in absence of any further instructions) at no additional charge for EIT UM. Should such failure be not capable of remedy (given the type of Service and/or the extent of the failure) or should the delivery have occurred after an essential delivery deadline which renders the Service irrelevant or useless, the Services at stake shall be considered as rescinded, and EIT UM is not obliged to provide any compensation to Supplier for such Services.

Modifications to the Services and/or other provisions of this Agreement may only be agreed by the Parties as per the EIT UM procurement rules, i.e. if:

mutually agreed in writing, and

the need for modification has been brought about by circumstances which a diligent contracting entity could not foresee; and the modification does not alter the overall nature of the contract;

and

any increase in price is not higher than 25 % of the original value of the Agreement. In addition, if several successive increases in price would be agreed, the total cumulating of such successive increases shall not exceed 25% of the original value of the Agreement; and

modifications above 10% of the original value of the Agreement should only amend specific conditions of the Agreement and be made by way of an amendment to this Agreement signed by both Parties.

Compensation, invoicing and payment, expenses

Supplier is entitled to charge, in respect of Supplier's Services as described under Annex 1, the compensation specified in Annex 1 per Service.

Supplier may only charge the amounts under Section 4.1. corresponding to the delivered Services, after acceptance of such Services by EIT UM.

Further, Supplier may only charge the amounts under 4.1. subject to (i) EIT UM having received a correct invoice bearing the essential elements below, (ii) all relevant Progress Reports relating to the delivered Services so invoiced having been properly delivered to EIT UM in a timely manner and accepted by EIT UM in writing (as the case may be).

An invoice shall be considered as correct when containing the following essential elements:

the date on which the Services were supplied (provided EIT UM S has accepted them pursuant to this Agreement) the quantity and type of goods supplied (if applicable) the nature and type of Services supplied the following data for every VAT tariff or exemption: the price per piece or unit, excluding VAT any reductions that are not included in the price the VAT tariff that has

By deviation to Section 4.2., Supplier may charge the amounts under Section 4.1., at the beginning of each (quarterly, monthly or other) period specified in Annex 1, if such alternative is specifically agreed by EIT UM in Annex 1. In such a case, requirements of Section 4.3. shall apply to each regular invoice.

The payment term applying to Supplier invoices fulfilling the requirements of this Section 4 is fixed in Annex 1.

All amounts corresponding to the compensation per Service, as fixed in Annex 1, shall be fixed tariffs, which may not be revised during the Term of this Agreement, unless specifically provided otherwise in Annex 1 (and within the limits of the price revision mechanisms authorised under the procurement procedure).

Supplier may charge expenses to EIT UM, to the extent Annex 1 provides for such possibility. Expenses shall only be paid if EIT UM has given its written approval prior to Supplier incurring said costs.

If Supplier fails to fulfil any of its obligations under the Agreement, EIT UM may suspend payment to Supplier, upon notice to Supplier.

Supplier hereby unconditionally accepts that EIT UM has the right to set off any amount that EIT UM owes to Supplier under this Agreement, with any amount Supplier owes to EIT UM under this Agreement or any other agreement.

Taxes, other contributions, no employment agreement and related indemnification

All tariffs are gross amounts but exclusive of any value added tax (VAT), sales tax, GST, consumption tax or any other similar tax (“**Taxes**”).

If the Services under this Agreement are subject to any other Taxes, Supplier may charge such Taxes to EIT UM, which taxes shall be paid by EIT UM in addition to the compensation for Supplier. Supplier is responsible for paying any applicable Taxes to the appropriate (tax) authorities.

In addition to Section 5.1. and 5.2., all social security, fiscal charges or taxation of any kind and contributions of any kind including but not limited to value added, levies, withholdings, unemployment, medical insurance and insurance of any kind, pensions, national insurance contributions and social security benefits, as imposed by any law, accommodation and travel costs, living expenses, or other expenses and charges arising from this Agreement, will be the exclusive responsibility of Supplier, who must pay such taxes, charges, any kind of expenses and contributions directly to the competent authorities or employees (as the case may be) (altogether called “**Contributions**”).

Supplier shall perform the Services hereunder as an independent contractor and not as an agent of EIT UM and nothing contained in the Agreement is intended to create a partnership, joint venture or employment relationship between the Parties irrespective of the extent of economic dependency of Supplier on EIT UM.

Supplier shall indemnify and keep EIT UM harmless from any claims from any authority for payment of any Contributions, including all interest charged in respect thereof, surcharges and possible administrative fines in connection with the Services performed by Supplier on the basis of the Agreement.

Intellectual property, ownership and licensing, IP infringement indemnification

“**Intellectual Property Rights**” or “**IP**” shall mean patents, utility certificates, utility models, (industrial) design rights, copyrights, database rights, trademarks, trade names and trade secrets, including moral rights and any applications, renewals, extensions, combinations, divisions, discontinuations or re-issues of the foregoing.

Unless expressly specified otherwise in Annex 1, should the performance of the Services entail the delivery of (written) advice, reports or any other materials or results (“**Deliverables**”), the ownership of any Intellectual Property Rights in such Deliverables shall be vested in EIT UM.

In addition to Section 6.1., any item provided by EIT UM (or by a third party designated by EIT UM on behalf of EIT UM) and used to perform the Services and/or embedded in the delivered Services, shall at all times remain the ownership of EIT UM S. Supplier shall have no right, title or interest in any of these items nor any trademark or trade name from EIT UM.

By exception to Section 6.1., Intellectual Property Rights owned or controlled by Supplier before the start of the performance of the Services shall remain the ownership of Supplier (“**Background IP**”).

Supplier hereby grant a non-exclusive, royalty-free and fully paid-up, worldwide, irrevocable and perpetual license under its Background IP used for the performance of the Services, to EIT UM, with the right to sublicense, for the use, make, have made, build-in, market, sell, lease, license distribute and/or otherwise dispose of the Services and/or Deliverables.

Supplier shall not, without EIT UM’ prior written consent, publicly make any reference to EIT UM, whether in press releases, advertisements, sales literature or otherwise.

Unless expressly specified otherwise in Annex 1,

Supplier shall indemnify and hold harmless EIT UM, its Affiliates, partners, contractors and employees in respect of any and all claims, damages, costs and expenses (including but not limited to loss of profit and reasonable attorneys’ fees) in connection with any third party claim that any of the Services alone or in any combination or their use infringes any third party IPRs, or, if so directed by EIT UM, shall defend any such claim at Supplier’s own expense. By “Affiliate” is meant any and all companies, firms and legal entities with respect to which now or hereafter EIT UM, directly or indirectly holds 50% or more of the nominal value of the issued share capital or 50% or more of the voting power at general meetings or has the power to appoint a majority of directors or otherwise to direct the activities of such company, firm or legal entity, including but not limitedly through a domination agreement.

EIT UM shall give Supplier prompt written notice of any such claim, provided, however, any delay in notice shall not relieve Supplier of its obligations hereunder except to the extent it is prejudiced by such delay. Supplier shall provide all assistance in connection with any such claim as EIT UM may reasonably require.

If any Services alone or in any combination, provided under the Agreement are held to constitute an infringement or if their use is enjoined, Supplier shall, as directed by EIT UM, but at its own expense: either 1) procure for EIT UM or its users the right to continue using the Services alone or in any combination; or 2) replace or modify the Services alone or in any combination with a functional, non-infringing equivalent.

If Supplier is unable either to procure for EIT UM the right to continue to use the Services alone or in any combination or to replace or modify the Services alone or in any combination in accordance with the above, EIT UM may terminate the Agreement and upon such termination, Supplier shall reimburse to EIT UM the price paid, without prejudice to Supplier's obligation to indemnify EIT UM as set forth herein.

Confidentiality, documents

Confidential Information means any and all proprietary and/or confidential data and information, such as but not limited to commercial and/or technical information, that EIT UM, its Affiliates or representatives may disclose directly or indirectly, whether in writing or any other form, to Supplier that is related to the Service, which (a) is marked as “confidential” or “proprietary” or words of similar import when disclosed, and (b) is orally disclosed and is summarized and described as confidential in a writing that is delivered to Supplier within fifteen (15) days of disclosure.

During the period beginning on the Effective Date and continuing for a period of five (5) years thereafter (the “**Confidentiality Period**”), Supplier agrees not to: (i) use EIT UM' Confidential Information for any purpose other than for the Service; and (ii) disclose EIT UM Confidential Information to any third party, except to its employees and other persons under its supervision that are operating within its organization, including without limitation, its Partners' employees who (A) have a legitimate “need to know” to accomplish the Service, and (B) are obligated to protect such Confidential Information pursuant to terms and conditions not less restrictive than those contained in this Agreement. Supplier shall protect EIT UM' Confidential Information as required hereunder using the same degree of care, but no less than a reasonable degree of care, as Supplier uses to protect its own confidential information of a like nature.

Supplier's obligations above shall not apply to any data or information that it can prove: (a) is lawfully available to EIT UM, prior to the time of receipt from EIT UM as verified by written records; (b) is or becomes publicly available without violation of this Agreement or any other obligation of confidentiality and through no act or omission of Supplier; (c) is lawfully furnished to Supplier by a third party without use or disclosure restrictions; or (d) is developed by Supplier without use of or reference to any of EIT UM' Confidential Information. Furthermore, a disclosure by Supplier that is required pursuant to any judicial or governmental proceeding shall not be considered a breach of this Agreement, provided that Supplier promptly after learning of such action shall notify, to the extent permitted by applicable law, EIT UM thereof to give Supplier the opportunity to contest disclosure or to seek any available legal remedies to maintain such information in confidence.

Supplier is not permitted - alone or with or through others – to remove, dispatch, transmit or allow any third parties to inspect, use or otherwise have access to any property belonging to EIT UM or any of its Affiliates, including but not limited to any notes, drawings, letters, formulas, recipes, other documents and/or any copies thereof, tools, designs, products manufactured or

(copies of) computer files or other data carriers, unless EIT UM has given its prior written permission to any such action.

EIT UM shall remain the owner of all property it has made available to Supplier in connection with this Agreement.

Supplier shall make all property belonging to EIT UM (or its Affiliates) such as, but not limited to any notes, drawings, letters, formulas, recipes, other documents and/or copies of such matters, tools, models, finished products, (copies of) automated files or other data carriers, which come into its possession during the term of this Agreement, available to EIT UM in good condition immediately upon initial request, but in any case on the day on which the Agreement ends.

Personal data

For the purpose of this Agreement,

“Personal Data” shall mean any and all information relating to an identified or identifiable individual, including but not limited to EIT UM current or former employees, employee family members, dependents or beneficiaries, customers, consumers, suppliers, business partners or contractors;

“Processing” shall mean any operation or set of operations performed or to be performed upon Personal Data, whether or not by automatic means, such as creation, access, collection, recording, organization, storage, loading, employing, adaptation or alteration, retrieval, consultation, displaying, use, disclosure, dissemination or otherwise making available, alignment or combination, blocking, erasure or destruction (hereinafter also referred to as a verb **“Process”**).

Where Supplier in the performance of the Agreement Processes Personal Data, then Supplier agrees and warrants that Supplier shall:

comply with all privacy and data protection law and regulations applicable to its Services;

Process Personal Data only (i) on behalf of and for the benefit of EIT UM, (ii) in accordance with EIT UM' instructions, and (iii) for the purposes authorized by this Agreement or otherwise by EIT UM, and (iv) insofar necessary for the Services rendered to EIT UM and as permitted or required by law; maintain the security, confidentiality, integrity and availability of the Personal Data;

implement and maintain appropriate technical, physical, organizational and administrative security measures, procedures, practices and other safeguards to protect the Personal Data against (i) anticipatable threats or hazards to its security and integrity; and (ii) loss, unauthorized access to, or acquisition or use of or unlawful Processing; and

promptly inform EIT UM of any actual or suspected security incident involving the Personal Data.

To the extent that Supplier allows a (sub)contractor to process the Personal Data, Supplier shall ensure that it binds such (sub)contractor to obligations which provide a similar level of protection, but in no way less restrictive, as this Section 8.

Supplier shall, upon the termination of the Agreement, securely erase or destroy all records or documents containing the Personal Data. Supplier accepts and confirms that it is solely liable for any unauthorized or illegal processing or loss of the Personal Data, if Supplier fails to erase or destroy the Personal Data upon termination of the Agreement.

Supplier shall indemnify and hold harmless EIT UM, their officers, agents and personnel from any damages, fines, losses and claims arising out of a breach of this Section 8.

Liability, indemnification, insurance

Supplier shall indemnify and hold harmless EIT UM, its Affiliates, agents and employees, from and against all suits, actions, legal or administrative proceedings, claims, demands, damages, judgments, liabilities, interest, attorneys' fees, costs and expenses of whatsoever kind or nature (including but not limited to special, indirect, incidental, consequential damages), whether arising before or after completion of the performance of the Services covered by the Agreement, in any manner caused or claimed to be caused by the acts, omissions, faults, breach of express or implied warranty, breach of any of the provisions of this Agreement, or negligence of Supplier, or of anyone acting under its direction or control or on its behalf, in connection with Services or any other information furnished by Supplier to EIT UM under the Agreement.

Supplier warrants that it has taken out sufficient insurance against the aforementioned damage, costs and interest, or has made a sufficient provision for this purpose and is obliged to fully disclose to EIT UM immediately upon initial request all the (policy conditions of the) aforementioned insurance(s) and/or provisions. Supplier shall indemnify EIT UM and shall pay its insurance proceeds to EIT UM and furthermore indemnify for the excess amount of the total claim of damages that is not covered by the insurance of Supplier or any other insurance. EIT UM shall be entitled to take legal action against Supplier.

Neither Party excludes or limits its liability for death or personal injury arising from its own negligence, fraud, breach of confidentiality or for any liability that cannot by law be excluded or limited.

Subject to Section 9.3 In no event shall EIT UM be liable under any theory of liability, for indirect, incidental, special, consequential or punitive damages, which includes without limitation damages for lost profits or revenues, lost business opportunities, loss of image or lost data, even if EIT UM has been advised of the possibility of such damages and in no event shall EIT UM be liable to Supplier, its successors or assigns for damages in excess of the amount due to Supplier for complete performance under the Agreement, less any amounts already paid to Supplier by EIT UM.

Subject always to Section 9.3., depending on the nature of the Services and the liability risk associated therewith, a cap to the liability of Supplier under this Agreement may apply only if expressly mutually agreed in writing in Annex 1.

Suspension, termination of the Agreement

The Agreement is entered into as from the Effective Date specified in Annex 1 and shall end by operation of law, without the requirement of prior notice of termination, on the date the last of the Services have been delivered by Supplier, accepted and paid by EIT UM ("**Term**").

As an exception to the above, EIT UM may suspend, withdraw, dissolve or terminate this Agreement fully or partially with immediate effect without incurring any penalty or compensation if and as soon as:

Supplier breaches any of its material obligations under this Agreement and, notwithstanding a written request from EIT UM to repair the current breach and to take appropriate measures to prevent such a breach in the future, fails to comply with such a request within a reasonable deadline fixed by EIT UM in the notice; or

EIT UM, in its reasonable discretion, determines that Supplier is not able to perform the Services as required; or

Supplier fails to provide EIT UM with adequate assurance of performance following request by EIT UM; or

Supplier files a petition for bankruptcy or is declared bankrupt; or

Supplier has become unable to pay its debts as they fall due or make any special arrangement(s) or composition with its creditors;

Supplier enters into voluntary or judicial liquidation;

the business of Supplier ceases to exist or control or ownership is taken over by a third party;

as a result of the termination of the European Programme(s) which requested EIT UM to enter into this Agreement (as the case may be).

As from receipt of a termination notice from EIT UM (under any legal ground), Supplier shall take immediate steps to bring the terminated Services to a closure in a prompt and orderly manner and to reduce expenditure to a minimum.

Supplier may, after giving 14 calendar days written notice to EIT UM, terminate the Agreement if EIT UM:

Fails for more than 120 calendar days to pay Supplier the amounts due after the expiration of the payment term stated in Section 4; or

Consistently fails to meet its material obligations after repeated reminders; or

Suspends the progress of the Services or any part thereof for more than 90 calendar days for reasons not specified in the Agreement, or not attributable to Supplier's breach or default.

Safeguarding of EU's financial interest and conflict of interest

Supplier accepts without reservation that during the implementation of the Agreement and for four (4) years after the completion of the Agreement, EIT UM has the right for the purposes of safeguarding the EU's financial interests, the tender proposal and the Agreement with Supplier may be transferred to internal audit services, the EIT, to the European Court of Auditors, to the Financial Irregularities Panel or to the European Anti-Fraud Office ('safeguarding the EU's financial interests').

Supplier confirms that it shall take all measures to prevent any situation where the impartial and objective implementation of the Agreement is compromised for reasons involving economic interest, political or national affinity, family or emotional ties or any other shared interest ('conflict of interests'). The contractor is obliged to inform EIT UM immediately if there is any change in the above circumstances at any stage during the implementation of the tasks under the Agreement.

Miscellaneous

All notices given under this Agreement shall be given in writing. Any subsequent change of address shall be promptly notified by the Party concerned to the other Party and embodied in an amendment to the preamble of this Agreement.

In the event that Supplier is prevented from performing any of its obligations under the Agreement for reason of force majeure (being an event unforeseeable and beyond the control of Supplier) and Supplier has provided sufficient proof for the existence of the force majeure, the performance of the obligation concerned shall be suspended for the duration of the force majeure. EIT UM shall be entitled to terminate the Agreement with immediate effect by written notice to Supplier, immediately if the context of the non-performance justifies immediate termination, and in any event if the circumstance constituting force majeure endures for more than thirty (30) days and, upon such notice, Supplier shall not be entitled to any form of compensation in relation to the termination. Force majeure on the part of Supplier shall in any event not include shortage of personnel or production materials or resources, strikes, not officially declared epidemic or pandemic, breach of contract by third parties contracted by Supplier, financial problems of Supplier, nor the inability of Supplier to secure the necessary licenses in respect of software to be supplied or the necessary legal or administrative permits or authorizations in relation to the Services to be supplied.

Supplier shall not transfer, pledge or assign any of its rights or obligations under the Agreement without the prior written consent of EIT UM. Any such pre-approved, transfer, pledge or assignment shall be null and void and have no effect vis-à-vis such third party.

The rights and remedies reserved to EIT UM are cumulative and are in addition to any other or future rights and remedies available under the Agreement, at law or in equity.

Neither the failure nor the delay of EIT UM to enforce any provision of the Agreement shall constitute a waiver of such provision or of the right of EIT UM to enforce each and every provision of the Agreement.

No course or prior dealings between the parties, no course of performance, and no usage of the trade shall be relevant to determine the meaning of the Agreement and to modify the provisions of this Agreement.

No waiver, consent, modification or amendment of the terms of the Agreement shall be binding unless made in a writing specifically referring to the Agreement signed by EIT UM and Supplier.

In the event that any provision(s) of this Agreement shall be held invalid, unlawful or unenforceable by a court of competent jurisdiction or by any future legislative or administrative action, such holding or action shall not negate the validity or enforceability of any other provisions of the Agreement. Any such provision held invalid, unlawful or unenforceable, shall

be substituted by a provision of similar import reflecting the original intent of the clause to the extent permissible under applicable law.

All terms and conditions of the Agreement which are destined, whether express or implied, to survive the termination or the expiration of the Agreement, including but not limited to Intellectual Property, Confidentiality and Personal Data, shall survive.

The Agreement shall be governed by and construed in accordance with the laws of the country or state in which the EIT UM ordering entity is located, as applicable.

Supplier and EIT UM each consents to the exclusive jurisdiction of the competent courts in (i) the country or state in which the EIT UM ordering entity is located; or (ii), at the option of EIT UM, the jurisdiction of the entity of Supplier to which the order was placed, or (iii), at the option of EIT UM, for arbitration in which case Section 12.12. applies. Supplier hereby waives all defences of lack of personal jurisdiction and forum non-convenience.

If so chosen by EIT UM in accordance with Section 12.11, any dispute, controversy or claim arising out of or in connection with this Agreement, or their breach, termination or invalidity shall be finally settled solely under the International Chamber of Commerce Rules of arbitration, which Supplier and EIT UM declare to be known to them. Supplier and EIT UM agree that: (i) the appointing authority shall be the ICC-International Chamber of Commerce of Paris, France; (ii) there shall be three (3) arbitrators; (iii) arbitration shall take place in the jurisdiction of the EIT UM entity mentioned in the recitals or, at the option of EIT UM, the jurisdiction of the Supplier's entity mentioned in the recitals; (iv) the language to be used in the arbitration proceedings shall be English; and (v) the material laws to be applied by the arbitrators shall be the laws as determined under Section 12.10.

The United Nations Convention on International Sale of Goods shall not apply to the Agreement.
