1. Introduction

The EIT KIC Urban Mobility, S.L. and its co-location centres (hereinafter, the “EIT Urban Mobility”), owned by the EIT Urban Mobility Association, aims to encourage positive changes in the way people move around cities in order to make them more liveable places by creating systemic solutions that will move more people around the city more efficiently and free up public space, ringing all key players in urban mobility together to avoid fragmentation, and engaging cities and citizens from the beginning, giving them the opportunity to become true agents of change.

The EIT Urban Mobility aims to maintain and develop a relationship of trust in the areas it operates, especially with those individuals, groups or institutions whose contribution is essential to make the EIT Urban Mobility mission a reality or who have, in any way, an interest in that mission or in achieving its goals. The EIT Urban Mobility also aims to carry on its activities by meeting the good governance principles of the European Institute of Innovation and Technology (“EIT”), established by Regulation (EC) N° 294/2008 of the European Parliament and of the Council of March 11 2008 or the regulation that may substitute it.

Ethical behaviour promotes and encourages the relationship of trust between EIT Urban Mobility and its stakeholders.

Good reputation is an essential intangible resource. A good reputation in external relations favours research, education, business, collaboration and investments, partnership loyalty, attracting the best human resources and supplier confidence while in internal relations, it helps to make and implement decisions without conflict and to organise work without bureaucratic controls or excessive use of authority.

To this end, the EIT Urban Mobility is interested in adopting a Code of Good Conduct (hereinafter, the “Code”) and its Annex I including a conflict of interests policy (“Conflict of Interest Policy”), following the article 19 of its internal by-laws.

The mere fact that members of the Supervisory Board are the representative of or have a professional link with a particular EIT Urban Mobility Core partner or project partner does not imply that they have a conflict of interest with regards to decisions on the approval of the Business Plan (i.e. as opposed to decisions on specific amendments in order to promote interests of individual partners).

The Chair of the Supervisory Board, the oldest member of the Supervisory Board different from the
Chairperson or the CEO, as the case may be (the “Person in Charge”), shall without undue delay decide on the possible decisions according to the following criteria:

(a) Interests can only be assessed by considering whether the communicated Source of Conflict of Interest or the potential Conflict of Interest of the Obligated Person is compatible with the EIT Urban Mobility’s activities and interests;

(b) In the case of a specific Source of Conflict of Interest or potential Conflict of Interests, the assessment should take into account the context in which the communication is made, including the items on the agenda of the meeting in which the person participates and the role and function that he or she is required to take on or perform in that context.

In case the potential Conflict of Interest only concerns a particular matter, issue or decision, the Obligated Person withdraws from the part of the meeting at which there is discussion of any arrangement or transaction affected by the potential conflict of interest. In case the Obligated Person is a member of the Supervisory Board, then the member who has the potential conflict of interest will not vote on any such matter on the relevant meeting and will not to be counted when considering whether a quorum of members of the Supervisory Board is present at the meeting. Any such disclosure and the subsequent actions taken will be noted in the minutes of the Supervisory Board.

7. ADOPTION OF THE DECISION

The Person in Charge may request from the Obligated Person the documentation it considers necessary, without the Obligated Person being able to refuse to provide it without due cause. Likewise, it shall issue the decision in the briefest time possible, in order to avoid any damage to the interests of the EIT Urban Mobility, as well as to allow the Obligated Person to exercise its functions as soon as possible if it is deemed that there is no Conflict of Interest.

If the Person in Charge decides that the Obligated Person has fallen under a situation of Conflict of Interest, the following restrictions may be established by the sole decision of the Person in Charge:

a) Withdraw the Obligated Person from any preparatory work and discussion related to the Conflict of Interest; or

b) Withdraw the Obligated Person from any decision that may be affected by the identified Conflict of Interest.

In case any other EIT Urban Mobility Involved Party is aware, or is made aware, of information that is not consistent with, or that is missing from, the declaration of a Obligated Person and that a preliminary assessment suggests that it concerns a declarable interest in the terms of this Policy, the Person in Charge will contact Obligated Person concerned, asking her/him to clarify the situation within seven calendar days, in particular by providing the rationale for the absence of the information to be declared, and if applicable to complete the declaration of interests with the missing information.

If the missing information is not provided within seven calendar days, the Person in Charge may take any appropriate preventive action regarding the Obliged Person’s participation in the EIT’s activities.

The Person in Charge may carry out an internal assessment involving outside counsel to determine the existence of the conflict of interest.

The Obligated Person shall be given the opportunity to explain his/her case towards the Person in Charge.

In case the Person in Charge determines that the Obligated Person did not comply with his/her obligations under this policy of conflict of interests, whether intentionally or through negligence on his/her part, shall make him/her liable to measures or actions in accordance with the rules applicable in the specific case.
