EIT URBAN MOBILITY

Glossary

Call for Proposals	The Call for the Proposals is the instrument used by EIT Urban Mobility to allocate funding through projects to third parties, supporting the deployment and development of the Strategic Agenda. EIT Urban Mobility deploys two types of calls in accordance with the provisions outlined in the specific rules for EIT KIC actions in HE MGA Annex 5: Open Calls and Calls for partners.
Call Manual	The Call Manual is the main document outlining the terms, conditions, and criteria for any call for proposals launched by EIT Urban Mobility, adhering to the principles of transparency, equal treatment, open competition, and sound procedural management.
Deliverable	Deliverables are tangible or intangible good or service produced during the project implementation. They track the progress made towards a project's objectives and may take the form of a report, a document, a software product, a course, an event or any other building block of a project. The deliverables specified need to fully demonstrate the project's achievements and the judicious use of public funds.
EIT KPIs	Set of Key Performance Indicators (KPIs) defined by the EIT that reflect the EIT operational objectives for education, entrepreneurship, and innovation. These KPIs are used to measure how effectively a KIC/project meets the objectives of the EIT.
Evaluation Process	Process by which EIT Urban Mobility, supported by external experts, examines the quality of a proposal and scores it to determine whether it should be selected for EIT funding.
Evaluation Panel	Group of expert evaluators (usually at least 3 external individuals for calls) along with a Rapporteur with proven expertise in a specific area or topic of the Call for Proposals. The role of this panel is to evaluate eligible proposals submitted in response to a particular Call for Proposals based on a set of predefined evaluation criteria. The Evaluation Panel is assisted by a Quality Controller from EIT Urban Mobility to ensure process compliance.
Horizon Europe Annotated Model Grant Agreement	The Horizon Europe Annotated Model Grant Agreement (AGA) a detailed guide provided by the European Commission that explains the rules applicable to Horizon Europe projects, using practical examples and clarifications.
KIC Specific KPIs	Set of indicators defined by EIT Urban Mobility that reflects the societal challenge that the KIC is trying to address.
Knowledge triangle	This refers to the synergistic relationship between education, research, and innovation, particularly within a knowledge-based economy. The EIT Urban Mobility aims to create close partnerships between European education, research and business entities. It also

integration (KIT)	involves cities, either through the composition of the project members or through the impact that the project is expected to have.
Milestone	Control points to chart progress. They may correspond to the completion of a key deliverable that allows the next phase of work to begin.
Project Leader	The Project Leader is the main contact for EIT Urban Mobility from the time the funding is awarded until the project has been implemented. In case of multi-beneficiary calls, the Project Leader steers the project activities and act on behalf of the consortium (the other partners participating in the project) towards EIT Urban Mobility.
Ranking list	List of proposals ranked according to the score awarded by the Selection Committee.
Selection Committee	The Selection Committee is responsible for selecting shortlisted proposals evaluated by the Evaluation panel, as well as for defining conditions for funding of the selected proposals in the final EIT Urban Mobility's portfolio.
Summary Evaluation Report	The Rapporteur issues a single and final Summary Evaluation Report (SER) for each proposal after the consensus meetings. This document provides a concise overview of the proposal's final evaluation score, its strengths, weaknesses, associated risks, and any recommendations made.
