1. Register and create an application

1.1 PIC and PIF registration

1. The first step an organisation must take, in order to be able to apply for an EIT Urban Mobility call, is to register in the [EU Funding & Tender Portal](#) and obtain a **valid PIC number**. If an organisation has already a PIC number, there is no need to register again.

If you do not know if your organisation already has a PIC number, you can verify directly on the EU Portal ([click here](#)) whether your organisation is already registered.

2. Once an organisation has a valid PIC number, it will be possible to register in the EIT UM NetSuite Platform, by submitting the **Partner Information Form (PIF)**.

If in a few hours, after submitting the PIF form, you don't receive an automatic e-mail with the log-in credentials, please contact the EIT UM Service Desk servicedesk@eiturbanmobility.eu.

Be also aware that, registration of a new entity in the submission tool, can take **up to two working days**. Therefore, ensure that all project partners are correctly registered in the submission tool at least a few days before the deadline.

NB: Organisations that previously participated in an EIT Urban Mobility project, and therefore are already registered in the PLAZA platform, should not submit a PIF form. Instead, please contact the EIT UM Service Desk servicedesk@eiturbanmobility.eu: you will be then provided with the credentials to access the new NetSuite platform.

3. Once you have your credentials, you can enter [the EIT UM NetSuite platform](#) after setting a new password.

1.2 Search for open calls and create an application

Once you land on the **homepage of the portal**, click on menu, call for proposals, open calls:

You will see the list of all EIT Urban Mobility calls currently open. Choose the **MS & Fellowship Open Call 2026** from the list and click on the “**apply**” icon:

Once you click on “apply”, a new Application Form is created and you will be able to start filling it in with all the information of your project. The Application Form is divided in six different tabs, each one containing a set of questions.

Once you start working on your Application Form, we recommend you to **save often**, especially when you move from one tab to another or work for long in the portal.

You will be able to find your draft application as shown here below. In the “my application” section, you can also see if your application is still in draft or was submitted.

2. Main Information

The ID proposal number is automatically assigned by the system when you first save your proposal.

When entering the **project title and acronym**, remember this will be the official name publicly used to promote your project. Choose the name wisely.

This Call is open to proposals of 9 to 12 months (until December 31st, 2026), depending on the type of planned activities. The tentative start of the projects is on **1 January 2026**.

All KPIs should be achieved within the project lifecycle.

The sections “total budget”, “total EIT funding” and “total co-funding” will be populated automatically by the system once you insert the budget.

When writing the **executive summary**, remember this must provide a comprehensive but general overview of the project and that, if your project is selected for funding, it will be used for dissemination purposes. We suggest you fill in this section once you have completed all other sections and therefore have a clear overview of your project.

*** Executive summary (max 1000 characters)**

Please describe the problem being addressed and why existing solutions do not address the need. Describe your proposed solution/product/service along with the value proposition and its market opportunity. Describe how and where you intend to validate the solution (demos) and the expected impact (short/medium/long term). This information should be accessible to the general public for dissemination. NB: This field should not contain jargon, acronyms, and confidential, or sensitive information(max 1000 characters)

3. Partner Information

The **“project leader”** is automatically assigned by the system, and it is the contact of the organisation that creates the Application Form.

The **e-mail of the main contact person** is also automatically populated and is always the e-mail address of the contact that created the Application Form.

Once you have added all partners, you must indicate if there is any **direct link** between any of them. If there is a direct link, you must indicate which partners are linked and which type of link they have.

Two participants (legal entities) are dependent on each other where there is a controlling relationship between them:

- A legal entity is under the same direct or indirect control as another legal entity; or
- A legal entity directly or indirectly controls another legal entity; or
- A legal entity is directly or indirectly controlled by another legal entity.

Control: Legal entity A controls legal entity B if:

- A, directly or indirectly, holds more than 50% of the nominal value of the issued share capital or a majority of the voting rights of the shareholders or associates of B, or
- A, directly or indirectly, holds in fact or in law the decision-making powers in B.

The following relationships between legal entities shall not in themselves be deemed to constitute controlling relationships:

- the same public investment corporation, institutional investor or venture-capital company has a direct or indirect holding of more than 50 % of the nominal value of the issued share capital or a majority of voting rights of the shareholders or associates;
- the legal entities concerned are owned or supervised by the same public body.

* Existence of direct links between participants in the current proposal

Under this section you can also add any contact to whom you wish to grant **co-editor rights**. To add a contact, you must introduce the full and correct e-mail address. At that point, you will be able to select the contact from the drop-down menu.

If you cannot find your contact in the drop-down menu, you must ask the contact to register in NetSuite or to be added as contact person of an organisation already registered in the system.

We suggest granting co-editor rights only to a limited number of people and only when their direct contribution in filling in the Application Form is needed.

If you have one or more co-editors assigned to your proposal, make sure **no more than one user** is working on the Application Form **at the time**. If more users are working simultaneously in the Application Form, the system will not be able to save the work of all users, and this will cause a loss of information.

Please note that only the creator of the Application Form (that is, the main contact person for the proposal) can do the final submission of the proposal.

Co-Editor

If a co-editor is selected, they have full access to your proposal. Please ensure that the consortia agree on the content of the proposal before making the submission.

4. Project Scope

For this whole section: we recommend you prepare the answers offline and copy-paste them in the Application Form only once they are finalised. When filling in the final information in the system, we recommend you to **save often** (do not wait to have the whole tab completed before saving).

Remember that you are **not allowed to include any URLs** in your Application Form.

Under the **Project Scope** tab, you will need to answer the following questions:

- **Project main objectives**

Please describe in a concise form what the project intends to do and how it will lead to concrete outcomes and results. Make sure your objectives are SMART - Specific, Measurable, Achievable, Realistic and Time Bound.

Strategic Fit

- **Describe which specific knowledge gap(s) your proposal aims to address in the field of urban mobility. Explain how the proposal contributes to closing these gaps in line with Strategic Objectives of EIT Urban Mobility Strategic Agenda, and how this supports the broader societal and strategic objectives outlined in the Call Manual.**

Focus your answer on the knowledge and skills gap your proposal targets, provide evidence or justification of its relevance, and describe how your proposed activity contributes to building capacity and reducing the gap in line with EIT Urban Mobility's strategic objective SO2 - "Close the Knowledge Gap.

- **State the potential impact of the project proposal in line with or exceeding the specific requirement stated for the respective type of activity (section 3.5 of the Call Manual)**

Clearly outline what will be the impact of your project and how each key requirement for your chosen activity type is fully addressed or exceeded, referencing Section 3.5 in the Call Manual.

Excellence

- **Describe how the proposal demonstrates a pan-European dimension in the implementation of activities and in the potential impact of expected results.**

Explain how the proposal ensures a strong Pan-European dimension through the involvement of partners different countries, enabling cross-border collaboration, exchange of practices, and/or international student experience.

- **Describe how the proposal leverages the knowledge triangle in curriculum development and programme implementation.**

Explain how the proposal integrates the Knowledge Triangle by actively involving stakeholders from education, research, industry, and cities. Detail how these groups contribute to curriculum design and delivery of the programme. Provide examples of how these elements contribute to the programme's development, implementation, and expected outcomes.

- Summarise the relevant experience of the applicant(s) in developing or managing similar education programmes, including collaborative or international projects.

Provide concrete examples and evidence of prior successes in relevant projects, emphasizing international or interdisciplinary collaboration. Clearly show a track record aligned to the scope and scale of the proposal, including in terms of student recruitment.

- Explain how your educational approach and/or structure differs from existing offers on the market, considering innovation in format, audience, or delivery.

Highlight specifically what makes your proposal innovative and provide clear evidence of how it differentiates from current educational offerings.

Impact

- Communication and Dissemination Plan/Strategy

Please describe the communication and dissemination plan to be carried out during the project implementation, including actions for each target group.

- Outline your approach for attracting and selecting students, ensuring diversity and inclusion, and reaching your recruitment targets.

Clearly define realistic and detailed outreach plans, including specific channels, key messages, and methods for achieving diverse student participation.

- Describe how the programme will increase student participation over time and contribute to financial sustainability.

Provide measurable financial and growth targets, explicitly detailing how increased student numbers or external revenue sources support sustainability.

- Explain how the project's outcomes and structure allow for future replication, scalability, and long-term durability.

Outline specific strategies to ensure long-term relevance, scalability, and impact of your project's outcomes.

- **For MSA1: Describe the proposed cities, travel arrangements, dates, and activity plan in line with the Summer School model.**

Briefly outline the two cities you plan to involve (including the rationale for their selection), your proposed dates, and how you plan to organise travel between them. Include a short overview of the planned schedule of activities and how the structure follows the two-week challenge-based format of the EIT Urban Mobility Summer School model. If not applicable, please indicate N/A.

- **For MSA1: Summarise the educational concept of your Summer School and how it aligns with the EIT Label requirements for non-degree programmes.**

Provide a summary of your Summer School's learning concept, including the main learning focus and objectives. Explain how the programme addresses EIT Overarching Learning Outcomes (OLOs), the intended learning outcomes (ILOs), the teaching methods you will apply, and the way student performance will be assessed. If not applicable, please indicate N/A.

- **For MSA2 and MSA3: Describe your programme's alignment with EIT Label requirements for Degree Programmes. Include a short summary of the new programme you plan to develop or your existing programme and the modifications needed to align with the EIT Label.**

Make sure the proposed activity align with the EIT Label. Include details such as the educational model, ECTS structure and entrepreneurship components if any. If not applicable, please indicate N/A.

- **For MSA4: Describe how your programme meets the EIT Label requirements for Fellowship schemes and what support mechanisms are in place to deliver it.**

Describe the educational model, mentoring, entrepreneurial ecosystem, mobility features, etc. If not applicable, please indicate N/A.

- **For MSA5: Describe how your programme aligns with the EIT Label requirements for Degree Programmes. Provide a brief overview of the existing Master programme.**

Summarise your current Master programme, including structure, main content areas, and target audience. Explain how your programme is already aligned with the EIT Label principles and the EIT Overarching Learning Outcomes (OLOs). If not applicable, please indicate N/A.

- **For MSA6: Describe how your proposed activity aligns with the principles of the EIT Label for non-degree programmes.**

Explain how the programme addresses EIT Overarching Learning Outcomes (OLOs), the intended learning outcomes (ILOs), the teaching methods you will apply, and the way student performance will be assessed. If not applicable, please indicate N/A.

Implementation

- Describe how gender and diversity considerations will be integrated in your proposed activity.

Explain how your proposed activity will embed gender and diversity considerations in the curriculum design, teaching content, and learning environment. Outline intended measures for inclusive programme development, gender-balanced participation, and targeted outreach to underrepresented groups. If applicable, describe plans to ensure balanced implementation teams and foster inclusive learning conditions.

- Consortium

Describe the roles, responsibilities, and complementarity of the consortium partners. Describe how the team composition supports project success and ensures gender balance.

- Project budget and duration

Describe how the proposed budget and project duration align with the ambition, scope, and complexity of the project. Explain any cost-efficiency included in the budget, such as resource allocation or leveraging of existing assets. Explain the financial commitment to this project through co-funding.

- Under the **risk management** section, we ask you to outline the risks potentially related to your project. To add a risk, click on the “add new” button.

5. Work Plan

5.1 Work Packages

Under this tab you are asked to build and define the operational structure of your project. You must therefore divide your planned activities into different **Work Packages (WPs)**. To each WP you can add the related deliverables.

We highly recommend **limiting the number of WPs** (to **maximum of 3 to 5**) to the ones strictly needed to group the various phases and main type of actions of your project. When describing the WPs activities, you are requested to divide them according to **tasks**.

The creation of the WPs structure must be done before starting to work on the Budget tab: the WPs will in fact appear in the Budget tab, only after you have created in the WPs in the Work Plan tab. Following this same logic, once you remove a WP in the Work Plan tab, the related WP will disappear also from the Budget tab.

Once you click on “new work package” a new window will appear where you can insert the details of the work package. The WPs will be **automatically numbered** by the system: do not include the WP number in the WP title, and make sure you give them a name that clearly reflects the type of activities covered.

The start and end date of the WPs must be consistent with the start and end date of the overall project.

Remember that the WP leader **must** be included also under the WP contributors. The WP will in fact be created in the Budget tab, only for the partners that are listed as contributors under that specific WP.

At the same time, if a partner is not supposed to have any budget in one WP, it should not be included among the WP contributors (because the budget cannot have a value of 0 Euro).

If you delete a WP, all deliverables linked to it will be deleted too. By deleting a WP, the system will automatically re-number the other existing ones (if any).

5.2 Deliverables

Deliverables capture the achievement of key outputs and may take the form of analysis reports, feasibility studies, strategy documents, pilot action reports, training documentations. The deliverables specified need to fully demonstrate the project’s achievements and the judicious use of public funds.

Make sure you include the mandatory deliverables outlined in the Call Manual. You can also include additional deliverables, if needed, but we recommend to keep the numbers limited to the most relevant ones.

Once you save a WP, it will be possible to link deliverables to it. To do so, simply click on “add deliverable” and a pop-up window will open:

The deliverables will be automatically numbered by the system: do not include the deliverable number in the title, and make sure you give them a name that clearly reflects the type of activities covered.

If you delete a deliverable, all deliverables linked to it will be deleted too. By deleting a deliverable, the system will automatically re-number the other existing ones (if any).

Make sure that the achievement date of the deliverable is consistent with the end date of the WP and with the end date of the project.

If your project is approved for funding, you will be asked to justify in a dedicated report the achievement of each deliverables foreseen: make therefore sure you only include meaningful deliverables and that the achievement date you indicate is plausible.

5.3 Key Performance Indicators (KPIs)

In the Application Form, you will need to select the corresponding KPI:

Keep in mind that:

- the achievement date cannot be after the end of the project. For this Call we expect **all mandatory KPIs to be reached by the end of 2026**;
- for the years 2027 and 2028, please indicate 0 as target value.

7. Budget

The Budget section is **directly linked to the Work Plan tab**. The Budget table is structured according to Work Packages (WPs) – and WPs appear in the Budget tab as soon as they are created in the Work Plan tab. This means that, deleting a WP under Work Plan will automatically delete that specific WP under the Budget tab as well.

For this reason, we highly recommend you to **fill-in the Budget tab only once the Work Plan has been finalised** and you do not expect to make any additional changes to the WPs' structure.

At the top of the Budget tab you will find the summary table: this table will be automatically populated as soon as you start to include figures in the budget table of each partner organisation.

Kindly note that a partner cannot have 0 Euro budget under one WP: if that partner is not supposed to have budget under a specific WP, make sure that, in the "Work Plan tab" that partner is not listed as contributor for that specific WP. In this way, that WP will no longer appear in the budget tab of that partner.

By clicking on the title "total budget project" you can hide/unhide this table.

Right under the total budget table, you will find one table per each one of the partners involved into the project. For each of them, only the Work Packages where they have been included as "contributor" will appear.

The budget is divided according to the cost categories foreseen by the **Horizon Europe Programme**. You will be able to fill in all the cells which appear white.

Each time you introduce a cost under a cost category, you must provide a brief explanation of which costs will be covered. Some examples:

- 3.000 Euro under Other goods and services “2.000 Euro for the catering and venue of event X; 1.000 Euro for the fee of a professional trainer for the event/course X”.
- 5.000 Euro under Travel “cost for the trip of two persons for each of the two project’s events X and Y”.
- 60.000 Euro under Employee “10.000 Euro for 0.5 Full Time Employees for the activities linked to Task X of WP X; 50.000 Euro per 3 Full Time Employees for the activities linked to Task X of WP X”.

You must also indicate the **percentage of EIT funding** (the part of the costs which will be covered by EIT) and the percentage of own funding. Remember that all proposals submitted to this Call must have a minimum co-funding rate of 25% for the whole project duration.

You must repeat this process for each partner.

Before moving to the next tab, remember to **click on the “save” button**.

8. Submit Application Form

We strongly recommend all applicants **not to wait the last day/minute to submit the Application Form**.

You should ideally **submit it with at least one day of margin**: should you encounter any system error while submitting the Application Form, EIT Urban Mobility staff will in fact be able to properly assist you.

When your Application Form is correctly and fully completed, **save it one last time** and you can then **submit** it by clicking of the “submit” button:

The screenshot shows a web interface for submitting an application form. At the top, there are four buttons: 'Save As Draft' (blue), 'Submit' (green, circled in red), 'Print' (white), and 'Help Disabled' (white). To the right of the 'Help Disabled' button is a toggle switch labeled 'Help Enabled'. Below the buttons, the status is displayed as 'In Progress'.

If your Application Form has been not properly completed – ie. some mandatory information has not been included – the system will not allow you to submit the Application Form and an error message will inform you about what is missing. You can therefore use the submit button as a “validation” check: in this case, just remember not to click “ok” until you are sure all is finalised.

Once an Application Form is submitted it will not be possible to revert the process any longer, nor to submit a new updated version. Make therefore sure that you submit the Application Form only once you are sure that the information introduced are final.

After clicking “submit” a pop-up message will ask you to confirm or cancel your choice: click OK.

The screenshot shows a warning dialog box with the title 'Warning'. The text inside reads: 'You are about to submit the final version of your proposal. After the submission, it is no longer possible to edit your proposal'. There are two buttons at the bottom: 'Cancel' and 'Ok'.

Once your proposal is submitted **you will not receive any e-mail notification**. The following message will however appear, and your application will not be editable any longer.

 Your application has been received, we'll contact you soon.

By going into the section “my applications” you will be able to see the **status of your application** and therefore see if it was properly submitted or not.

9. Tips & Tricks

Please find here below a recap of the **main point of attention** to follow in order to guarantee a smooth application process:

- Start creating and filling in the Application Form **at least 3 or 4 weeks before the submission deadline**: in this way you can familiarise yourself with the Application Form and can **let us know in due time if you are encountering any technical issue** by writing an e-mail to pmo@eiturbanmobility.eu.
- **Do not include any external links (URLs)** in the Application Form.
- For tabs like the “Project Scope” one: prepare your descriptions in an **offline document**, and copy paste the text in the online Application Form only once final.
- If you have **co-editors**, remember that only **one user** at the time should work on the Application Form.
- The **Budget tab** should be one of the **last tabs to be filled in**, because the table is directly linked to the Work Plan structure.
- When you prepare the **description of the Work Packages (WP)**, remember to describe the actions according to **tasks** (ie. each WP should have Task 1, 2, 3...).
- **Save often**: in this way you can make sure no information will get lost (if you stop working on the Application Form for some time, **the system will log you out automatically without saving**).
- **Do not wait the last day/minute to submit the Application Form**: should you encounter any system error while submitting the Application Form, EIT Urban Mobility staff will in fact not be able to properly assist you if it is last minute.
